RE: Notice of Completed Administrative Proceeding in Subcase 74-15781

Dear Mr. and Mrs Leth:

I recently received a telephone call from SRBA court staff regarding the Notice of Completed Administrative Proceeding (NCAP) filed on June 7, 2007, for water rights 74-328D, 74-15781, 74-15782, 74-15783, 74-15784, 74-15785 and 74-15786. The court informed me they discovered a possible discrepancy in the recommendation of right 74-15781. Although you should have received a copy of the NCAP from the Idaho Department of Water Resources (IDWR), another copy is enclosed for your convenience.

The amount listed under the quantity element for your water right shows 0.222 cfs while the quantity amount shown under the purpose and period of use shows 0.022 cfs for irrigation. The quantity element should read 0.022 cfs, matching the amount shown in the purpose and period of use area. The 0.022 amount correctly fits into the splitting of the parent water right, 74-328D, into the various parts held by the new owners.

A new recommendation print out of your water right with the typo corrected is also enclosed. The court has been told the correct quantity amount is 0.022 cfs, and they have corrected their copy of the NCAP accordingly. The recommendations of the other rights shown in the NCAP appear to be accurate. Please replace the recommendation page for your water right in the NCAP with this corrected version.

Please don't hesitate to call me at 208-287-4816 should you have any questions. Thank you for your assistance in this matter.

Sincerely,

A handwritten signature in cursive script that reads "Vicki Kelly".

Vicki Kelly,
Paralegal
