

9-25-06

- Jeff Ierwell is working with Mr. Browning.
- They believe they can claim more than the 65 acres.
- If they amend their claim they could claim up to the 200 acres decreed if Browning still owns this and can prove it is in CRP.
- Jeff & Mr. Browning believe they can claim more than that and are working with an attorney.
- They are decreed 200 acres no more than that will be recommended.
- This was explained to Jeff in our conversation today.
- I told Jeff a mailing is going out ~~on~~ Sept 29th he then has till the 27th of October to send in the NOE for us to review with any other evidence & an amended claim. TH

9-21-06

— Condise said to give them a Priority
of 6-25-1917 for 22-630, 22-629, and
22-628.

- Nectley v. Browning
 - Decree does not state a priority date
 - 3 rights 22-628, 22-629, 22-630
 - 22-630 was transferred and approved with a 6-15-1900.
 - The other 2 rights both claim a Sept 7, 1906 priority
 - Ray is looking for complaint but does not know about the priority date problem.
- 8-31-06
- Conference w/ Candise
 - Candise is looking for complaint + Findings of fact.
 - If land list on complaint matches license 22-2017 then it was superceded if not it is not superceded.
 - Complaint may also have info on priority date.
 - ^{do not} we need a condition about the decreased flow rate as per decree
 - Do we need a condition about agreement that Nectley gets all water from pony until Browning begin irrigating.
- The

~~minutes~~

8-29-06

- After talking with eric we decided to give 72-698 the same priority date aproved by transfer # 1942. - Browning needs to amend.
- We are allowing for 2 cts/acres to acomodate any transmission losses and sprinkler irrigation. Field Reports stated no water was getting to POV.

Other rights from this POD? _____

Transfers Pending or approved: _____

Document how the POD and Source were verified:

6/8/06
 DO POD is located on Pony Creek. Diversion works consist of plastic and logs. Approx. 1 cfs was being diverted on the date of exam. Pony Creek was running approx. 8 cfs.

Ditch and diversion works are well maintained. Even though the POD is in CRP, water is used for stock water.

6 cfs claimed to irrigate 65 acres is too high.

Document how the POU was verified:

6/8/06
DO

Field exam showed that property is currently in CRP. There is a large ditch that runs through the property but it is not carrying any water at this time. There is water being diverted from Pony Creek (approx 1/25) but it isn't reaching POU. POU is in CRP and has been for the last 17 years. This property was irrigated with pump and sprinkler pipe, but when the property was put into CRP the pump & the pipe was sold. There is evidence of holding ponds that were used to store water for pumping. Acreage claimed is pretty accurate
