E. REASONS SUPPORTING OBJECTION(S):

The recommendation describes POUs on private land & federal lands with a priority date of 01-01-1900. There does not appear to be a basis for an 1900 priority on private or federal lands. The private land POUs were patented on many different dates between 1909 and 1924. The "base property" associated with the use on federal land was patented on a wide variety of dates, none of which is earlier than 1907. The recommendation also does not describe the land to which the use (POUs) on federal land is appurtenant as required by I.C. 42-1402.
