☒ This water right was not recommended, but should be recommended with the elements described above.

REASONS SUPPORTING OBJECTION(S):

Information was supplied to the IDWR in connection with their request for evidence of priority for this claim. This information included a copy of an aerial photograph dated June 12, 1949 showing Simplot's food processing plant; a newspaper article from the September 6, 1941 edition of the Caldwell News-Tribune describing the original construction of Simplot's food processing plant; a large format Oregon Short Line Railroad Station Map referencing Simplot's water line encroachments dated August, 1944; and a large format Site Plan dated 1947 referring to the "Hog House Well" (the original point of diversion for this water right) all of which materials are contained in the files of the IDWR. However, said information was supplied after the IDWR completed its 2006 field work season. Because of the IDWR's accelerated reporting schedule, the IDWR advised Simplot that it did not have time to schedule an examination to verify the water uses claimed before the Director's Reporting deadline.

The information described above was attached by the claimant to the Notice of Error filed in response to IDWR's preliminary recommendation for this water right. The IDWR has informed the claimant that, based on the above described information, an examination of the claimant's water systems will be scheduled to confirm the uses claimed. The claimant looks forward to cooperating

with the IDWR in providing access to the water systems for the examination and will also assist the IDWR in supplying any available additional information that may be necessary for the recommendation of this water right.
