Notice of Objection Attachment for Subcase 63-3041

E. REASONS SUPPORTING OBJECTION(S):

Explanatory Material states that "Use of this right is combined with water from Boise-Kuna Irrigation District". We are requesting that the condition be removed from the water right. The property receives no water from the irrigation district; therefore, water right 63-32625 is a primary water right and should be represented as such. Attached is a letter and accompanying map from the Boise-Kuna Irrigation District showing that the district does not supply water to the property. We realize that the explanatory material will not appear on the final decree, but we would like to ensure that no current or future records of this right have that condition attached.

RE: Water Right

Dear Scott:

Please find enclosed a 1915 Bureau of Reclamation map of Sec 9 2N 2W E2 SE4 NW4, which is used by the District for water rights appurtenant with the lands.

As you can see there is only 6.35 acres of Water Right on this quarter quarter, which belongs to the properties lying south of the Hoffman Lateral. The dashed lines north of the lateral indicate High Ground and have no surface water rights.

If you have any questions, please call me at 922-5608.

Thank you,

Lauren S. Boehlke
Secretary-Treasurer
