E. REASONS SUPPORTING OBJECTION(S): _____

Priority Date: This claim overlaps with the City's claim for licensed Water Right No. 63-2782. Both are based on use of Domestic Well No. 5. The licensed right was originally

permitted with a priority date of 9/2/1949. The priority date was advanced to 11/25/1959 as a result of late filing of proof of beneficial use. The City claims this water right based on the original date of installation of Well No. 5 and beneficial use of the water therefrom. The City will provide further documentation of the 1949 priority. If Water Right No. 63-28220 is decreed with the 1949 priority date, the City will withdraw its claim for Water Right No. 63-2782.

Corrected PODs: The City has included a corrected list of 10 PODs associated with the integrated potable water delivery system. The City's Amended Claim identified the incorrect quarter-quarter for Well No. 5 and the incorrect township and lot for Well No. 10.

Annual Volume: The City claims an annual volume based on use of this right for municipal purposes.

Original POD Remark: The Department included a remark stating "To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right as [original well information]." The City does not object to this remark so long as a similar remark is included for all similarly situated municipal water rights in Idaho. To the extent that the SRBA court (or other court) determines that this is an inappropriate limitation on municipal water rights, the City requests that the remark be removed from its water rights.
