Register and Receiver,
Hailey, Idaho.

Sirs:

July 16, 1912, William A. Stonebraker made homestead entry 011604, for a tract of land described by metes and bounds containing 100.5 acres, in T. 24 N., R. 10 E., B. M., under restored List No. 4-2 (old List 740), and on May 3, 1917, made additional entry 022809 for a tract of land described by metes and bounds containing 58.63 acres, under restored List 4-2035.

On March 15, 1918, entryman filed application for amendment of his additional entry 022890 to embrace land in List No. 4-1703, stating that the failure to apply for this land was due solely to the Forest Service neglect to give him information until February 26, 1918;

Hailey 011804 "C" MB

that the land embraced in List 4-1703 was not included in the original homestead entry where his house and other buildings were located.

The lands included in List 4-1703 and 4-2035 are identical under a changed description as the lands in the additional entry when amended as requested by the entryman; and together with a portion of the prior list 740 are described by homestead entry survey plat 344, containing 159.94 acres.

Very respectfully,

Assistant Commissioner.

Township 24, North, Range 11, East, Boise Meridian,
and, being first duly sworn, upon oath say: That I originally intended
to enter the the identical land now

(Describe lands applicant intended to enter.)

applied for in unsurveyed

Sections 13 and 24,
Township 24, North, Range 11, East, Boise Meridian;
that as the consequence of mistake and misinformation, said claim was
not made to embrace all (or any portion) of the lands so intended to
be entered, but, on the contrary, included and embraced lands not
selected or intended to be entered by me, and which I do not desire
to keep and retain in my said claims; that the error or mistake from
which I desire relief, and the reason why I do not desire to maintain
and perfect the claim as now made and recorded, will be now stated and
explained as follows:

(Set out fully a statement of the cause of the error and of the reason why amendment is
necessary or desirable. Applicant should also state when his error or mistake was discovered,
and why it was not sooner discovered.)

The error in describing the lands I desired to enter, and which I
believed I did apply to enter was occasioned solely by the failure of
the District Forest Office to give to me the right information concern-
ing the segregation of said lands from the National Forest and their
failure and neglect to give me description of and information as to
List No. 4--1703. I was not furnished with this list No. 4-1703 and
did not know until February 26, 1918, when I received a letter from the
District Forester at Ogden, Utah, calling my attention to the fact that
the lands in List No. 4--1703 were not included in my Homestead Entry.
The lands in this List No. 4--1703, (which I desire to file on) is where
I live and have lived for nearly five years, and the land on which my
house and other buildings are located.

The lands in List No. 4-1703, which I now ask to be included in my Additional Entry, and which were omitted by mistake, is the land on which I first settled, and should have been, as a matter of fact, in the first segregation from the National Forest.

The error was the easier made for the reason that the District Forest Office, in attempting to eliminate my homestead from the Forest, made three separate surveys thereof and therefore three "A" lists of it.

I do further declare that I am well acquainted with the character of the land now applied for, and every portion thereof, and from my personal knowledge I swear that there is not within the limits thereof any vein or lode of quartz or other rock in place bearing gold, silver, cinnabar, lead, tin, copper, or any deposit of coal; nor within the limits of said lands any placer, cement, gravel, or other valuable mineral deposits; nor is there any salt spring or deposits of salt in any form sufficient to render it chiefly valuable therefor; that no portion of said land is claimed for mining purposes under the local customs or rules of miners or otherwise; that no portion of said land is worked for mineral during any part of the year by any person or persons; that said land is essentially nonmineral land; and that my application therefor is not for the purpose of fraudulently obtaining title to mineral land; that the land applied for is not occupied nor claimed by any adverse claimant.

The character of the land applied for is as follows:

(Describe the character of the land by legal subdivisions, and state amount and kind of timber on each subdivision, if any. If the application pertains to an entry under the enlarged homestead law, it should be shown whether any of the land contains merchantable timber, and whether any portion is susceptible of irrigation at a reasonable cost from any known source of water supply.)

The land applied for is all comparatively level and susceptible of cultivation; I have about 5 acres of it now in cultivation and on which I raised this year a garden and some timothy and clover; There is no merchantable timber thereon; About 20 acres of the tract is susceptible of irrigation and I now have ditches thereon for the irrigation thereof.

Applicant further avers that the lands embraced in his entry, as now existing and of record, are in the same state and condition as when entry was made by him, no timber or other thing of value having been removed therefrom by applicant, or by any other person, by his procurement, or with his consent and acquiescence; that I have not sold, assigned, transferred, or relinquished said land, or any portion thereof, or obligated myself to do so.

Register and Receiver.
U. S. Land Office,
Hailey, Idaho.
Gentlemen:--

W. A. Stonebraker, of Warren, appears before me to-day to make application to file homestead upon the lands listed by the Idaho National Forest in "K" List 4-2035.

This land is in Chamberlain Basin near the Salmon River and Mr. Stonebraker has to travel about 100 miles over a mountain road to reach my office to make his application.

The notification and description of the land in this "K" list seems somewhat indefinite in this that includes within the description the tract of land previously filed for by Mr. Stonebraker. I had no way of determining the description of his former entry nor of the additional entry. In the hope to save him another trip to make corrected application I have taken his application on form 4--007 and form 4--018, copying into same the description as same is written in the Notice of listing sent him. I trust you can accept and approve the application as made, as it is some 100 miles from his home on the land to my office--about 200 miles to the county seat of Idaho County and over 300 miles to your office--by the usual routes of travel.

Yours truly,

United States Commissioner.

Approved by the Secretary of the Interior December 16, 1911.

Entries adjusted to home-
stead entry survey plat 344.

Register and Receiver,

Hayley, Idaho.

Sir:

July 16, 1912, William A. Stonebraker made
homestead entry 011604 for a tract of land described
by metes and bounds containing 100.8 acres, in T. 34 N.,
R. 10 E., B. 4. under restored List No. 4-2 (old
List 740), and on May 3, 1917, made additional entry
028880 for a tract of land described by metes and
bounds containing 88.63 acres, under restored List
4-2035.

On March 10, 1918, applicant filed application
for amendment of his additional entry 028880 to embrace
land in List No. 4-2035 stating that the failure to
apply for the land was due solely to the Forest Service
neglect to give him information until February 26, 1918,

Halley 011504 "V" 4B

that the land embraced in List 4-1703 was not included in the original homestead entry where his house and other buildings were located.

The land included in List 4-1703 and 4-2035 are identical under a changed description as the lands in the additional entry when amended as requested by the entryman; and together with a portion of the prior List 740 are covered by homestead entry survey plat 344.

The entry is accordingly adjusted to homestead entry survey plat 344, containing 138.91 acres.

Very respectfully,

Assistant Commissioner.

The Honorable,

The Secretary of the Interior.

Sir:

I have the honor to request that the tract of land indicated on the enclosed blue print and described in the accompanying field notes of survey (List 4-1703), in the Idaho National Forest, Idaho, which has been examined and is chiefly valuable for agriculture, and which in my opinion may be occupied for agricultural purposes without injury to the National Forest, and which is not needed for public purposes, be opened to settlement and entry in accordance with the Act of June 11, 1906, (34 Stat., 233):

Hailey Land District, Idaho.

Unsurveyed Township 24 North, Range 10 East, B. M., approximately Section 24. Area 22.23 acres, more or less.

The above described tract is listed to W. A. Stonebraker, of Edwardsburg, Idaho. Applicant settled on this tract in 1912 and desires it as an addition to List 4-2 (old serial 740), containing 100.50 acres, on which he made H. E. 011604 July 29, 1912.

Very respectfully,

W. A. Stonebraker
 Secretary.
