	Claimant claims 339 ac. However, he does not own all of the property. Recommended PPL with three rights from Park Saddle Creek for 282 ac. The remaining acres which he farms would have to be under an enlargement only if the property owners had a lease agreement w/ Jardine. Did not contact claimant at this time. If he wishes to make some changes, then he can do it through the NOEs.

	In response to NOE, reviewed all recommendations. Discovered that 22-325A was recommended for the whole right, but Jardine does not own all of the right. Changed according to ownership; limited all to 260 ac, the sum of acres from all decreed rights that Jardine owns. Reduced 27-325A to 1.2 acs. Not sure what the third comment means on NOE.
