

AFFIDAVIT

State of Idaho

County of Teton

I am currently 88 years of age, born in the year of 1918, and lived in Teton County Idaho for 88 Years. I am personally aware of water being diverted from Teton Creek for the use of flood irrigation of crops and land in Section 25, Range 45E, Tship 5N and in Section 36, Range 45E and Tship 5N. Both diversions have been improved and maintained. The associated ditches used are still in existence and have been improved and maintained on a yearly basis. The location of use is in Section 35, Range 45E, Tship 5N.

To the best of my ability I can remember water being diverted from these two points in June of 1948 for the use of irrigation and spring sub-water.
