

AFFIDAVIT

State of Idaho

County of Teton

I am currently 88 years of age, born in the year of 1918, and lived in Teton County Idaho for 88 Years. I am personally aware of water being diverted from Teton Creek for the use of flood irrigation of crops and land in Section 25, Range 45E, Tship 05N and in Section ~~36~~ 36, Range 45E and Tship 05N. Both diversions have been improved and maintained. The associated ditches used are still in existence and have been improved and maintained on a yearly basis. The location of use is in Section 3, Range 45E, Tship 04N.

To the best of my ability I can remember water being diverted from these two points in June of 1948 for the use of irrigation and spring sub-water.
