Diana Delaney
Clerk of the SRBA Court
P.O. Box 2707
Twin Falls, ID 83303-2707

Re: Director's Reports for Claim Nos. 67-375A, 67-375B, 67-375C, 67-11304A, 67-11304B and 67-11304C

Dear Diana:

I am writing to notify you of an error contained in the Director's Reports referenced above. The source and tributary are missing on the paper copy for each of these recommendations (copies enclosed). The data file on the CD that was sent to the Court with the Basin 67 Director's Report does list the source for all of these rights as Fort Hall Creek tributary to the Weiser River.

The error occurred because the actual point of diversion, which is located in Township 17 North, Range 01 West, Section 23, NWNWSW, is identified in the database as a point of injection, and IDWR's program that generates the Director's Report will not print a source for a point of injection or a point of rediversion.

Finally, the condition that describes the exchange does not clearly address the fact that the Fort Hall Creek water is diverted into the Farmers Canal for delivery, so that condition should be modified. Also, a standard explanatory condition addressing the delivery of Weiser River water through Farmers Canal has been added.

Based on what has happened, the Department would consider the problems to be clerical in nature and also hope that the Court would be willing to deem them clerical errors that could be fixed without soliciting objections. Corrected Director's Reports for each of the recommendations are also enclosed to illustrate what changes are necessary to correct the errors.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Carter Fritschle
Section Manager
Adjudication Bureau
