We, Dennis and Leah Studebaker, sold a portion of our ranch to Mark and Angela Hurley on 18 May 1994. The intent during the land transaction was to sell and transfer all water rights (74-00637 amounting to 1.75 cfs) from Pattee Creek onto that portion sold to Mark and Angela Hurley. The portion of the ranch we still owned would be irrigated exclusively from Warm Springs water rights. The entire water right from Pattee Creek was transferred at closing as evidenced by the New Property Owner Notice of Change of Water Right Ownership which also indicates it was not a split of any water right.

To clarify matters no land on the north side of Warm Springs Creek was ever irrigated with water from Pattee Creek. In 1980 a sprinkler irrigation system was added to irrigate land on the south side of Warm Springs creek only.

We sold the entire water right 74-00637 with the property sold to Mark and Angela Hurley. No water from Pattee Creek remained for the portion we retained and later sold to Shirley Cadman.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

amount of water and place of use.

2. Describe the changes you wish to make in the proposed recommendation:

Delete 74-15627 and add the water back into this water right.
(newly created 9/1/05)

3. Give a brief explanation as to why you disagree with these portions:

The intent during the land transaction was to transfer all water from Patter Cr. onto the land in my ownership. The 21 acres in NWNW would no longer be irrigated from Patter Cr. and acreage was added in NESW + SW1 under sprinkler in 1980.

I AGREE with this proposed recommendation: no changes need to be made.

Dear Ms Brown,

Enclosed is the mainline construction plan and completion report concerning water right # A74-00637. Dennis Studebaker completed this project on 5/27/1980. The irrigation system is designed to irrigate 99.5 acres (95 acres hayland and 9.4 irrigated pasture). The enclosed documents show obvious intent by Dennis to transfer all the Pattee Creek water right to the bench on the south side of Warm Springs Creek, stopping the usage on the 21 acres on the north side of Warm Springs Creek. This explains his willingness to transfer full ownership of this water right when I purchased this land in 1994. Please inform me of the next step. Thank you for your attention to this matter.

Sincerely,

Mark Hurley
