RE: Water right claims A22-12203 & A22-04157.

Dear Mr. Hanley:

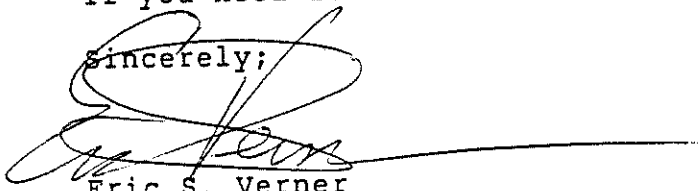

Thank you for submitting the water claims for your properties in Teton County. Before the Department can process your claims, some additional information is required.

Regarding the stockwater claim, numbered A22-12203. This claim was received (your copy attached) but there were a few errors with the legal descriptions. I have prepared an amended claim which incorporates the corrected legal descriptions as I interpreted your map. Please review this it and if you agree with the changes sign, notarize the claim and return it to our office.

Regarding the irrigation claim, A22-04157. I have also prepared another copy of this claim which is based upon claimed water right 22-4157 as you indicated on the form. I made some corrections to the legal description for the point of diversion based upon the map you enclosed. Again please review this claim and if everything is in order, sign/notarize the claim and return it to our office. You did not submit the fee for this claim, which must be paid before we can accept it. The filing fee for claim A22-04157 is \$130.00 (80 acres @ \$1.00/acre plus \$50.00 claim fee = \$130.00).

Please complete the items as requested and return the claims to this office. We will accept your claim A22-04157 without accessing a late fee if you return it within 30 days of this letter (Nov. 7, 1988). Your prompt attention is appreciated and if you need further assistance, please contact our office.

Sincerely;

Eric S. Verner
Sr. Water Agent
