11. I object because:

- ☐ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

The point of diversion for this water right as recommended in the Directors Report in the NESW of Section 25, T4N, R44E, is on National Forest System (NFS) land. The claimant is not authorized to occupy and use NFS land for this purpose. The Notice of Claim for this water right indicates that it is "Overflow from headgate which diverts water into ten inch pipeline under rights of Michael G. Kunz". The only other water rights diverting water from Henderson Creek are reported to be diverted from private land in the SWNWSE of Section 25. Because of this the exact location of the point of diversion for this water right is uncertain and needs to be clarified.
