

3/26/05

Dear Sirs:

I was asked by Allen Ruberry to write a letter about delivery or regulation of water from Badger Creek to a piece of property currently owned by Bob Wilson. The property is northwest of Hayden cemetery approximately $1/2$ mile.

During the period that I was watermaster (1978 - 2000) there was water from Badger Creek that was available to use on the property, but I never did regulate the main ditch that carried water through the property.

Also, there was never a call for water to the property.

Sincerely yours,
Lee O'Brien
