

NOTES

12-7-05

22-7253 - exchange well and redhorse from Teton River

22-7276 - river right. POD is same as POR for 22-7253

Both of these rights were licensed to the same 3060 ac. Each right is limited to 1720 ac within the 3060 ac, but not the same 1720 ac. According to the BU field report, each right is a different 1720, but they overlap. See colored map attached. There are some acres within the 3060 not covered by these two rights, but they are covered by one of two non-SRBA permits or appl. for permit 22-7490 and 22-7508. Because 22-7253 and 22-7276 were licensed to 3060 ac, recommending according to licenses. Not including the remark that the two together are limited to 1720 ac, because that is not what the field exam suggests.

22-163A - River water
22-163 $\left\{ \begin{array}{l} \text{A } 1.33 \text{ cfs} \\ \text{80 ac} \\ \text{B } 2.67 \text{ cfs} \\ \text{160 ac} \end{array} \right.$

This right was transferred to the same POD as the two rights listed above (Transfer 3146). And to the same POR as the rights above through another transfer, Transfer 3146 limits this right to a max. of 160 AF. Recommending as 80 ac w/m 3060 ac and 1.33 cfs/160 AF.

The two non-SRBA rights are not included in the POR and quantity of water. However, they do overlap the POR recommended. 22-7490 previously had a claim, but it was withdrawn.

Claims mention other water from 22-195 and 22-196 (Canyon Creek Canal Co.)
Not clear as to the relationship.

Water Right No(s). A22-163A + A22-7276

6 pump diversion area not GPS, but
