PO Box 2707
Twin Falls, Idaho 83303-2707

RE: Water Right #74-0054

To Whom It may Concern:

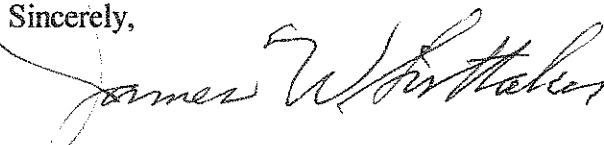

I have enclosed two additional affidavits. Opal Adams and Chet Adams are brother and sister to Ted Adams, who already has his affidavit on file with the objection I filed previously. Please attach them to the objection already on file.

These affidavits, written by the children of Bob and Opal Adams, former owners of the Leadore Angus Ranch, say that there has not been any beneficial use in over 60 + years of this water right, #74-0054.

The road from their property to Leadore ran right along the west boundary of the property that 74-0054 is supposed to irrigate. During all those trips to town and school they never saw water being put to beneficial use.

It's time that the Idaho Department of Water Resources declare this water right, 74-0054, abandoned.

Sincerely,

James Whittaker

Place of Use: SW1/4 NW1/4 Section 3, T15N, R26E - 40 Acres

NW1/4 SW1/4 Section 3, T15N, R26E - 40 Acres

SE1/4 NE1/4 Section 4, T15N, R26E - 40 Acres

NE1/4 SE1/4 Section 4, T15N, R26E - 40 Acres

Decreed: Big Timber Creek on 11/12/1909 for 3.2 cubic feet per second

To Whom It May Concern:

"FORGING THE GENETIC LINK"

My name is R. Chester "Chet" Adams. I currently live in Firth, Idaho. I was raised and worked (1943-1961) on what was known as the Leadore Angus Ranch, 2.5 miles south of Leadore, Idaho. The ranch is located south of the lands described above and associated with Water Right #74-0054.

During my childhood and teenage years, I believed the acreage outside of my parents ranch boundary was all land administered by the Bureau of Land Management (BLM) because my parents had some BLM grazing rights located southwest of their ranch boundary. Moreover, the land was undeveloped and only grazed during the spring, summer and fall depending on the forage produced from snow pack and rains.

During my tenure on the Leadore Angus Ranch, I never observed any land being irrigated with the described water right.

If I can be of further assistance, please call me at (208) 785-4694.

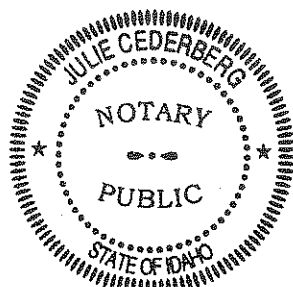

Sincerely,

R. Chester "Chet" Adams

Decreed: Big Timber Creek on 11/12/1909 for 3.2 cubic feet per second

Dear Sir or Madame:

My name is Opal F. Adams. I currently live in Reno, Nevada and am co-owner of the environmental permitting firm Enviroscientists, Inc. Our firm provides environmental support services to mining, natural resource development companies, government, and institutional clients required to evaluate environmental effects and maintain regulatory compliance. My education includes a Master of Science degree in geology. My specialty includes implementation of Federal Regulations (43 CFR 3809 and 36 CRF 228), the National Environmental Policy Act (NEPA), and Nevada water rights.

I spent the first 18 consecutive years of my life (1954 through 1972) living on the Leadore Angus Ranch, 2.5 miles south of Leadore, Idaho. The ranch is located south of the lands described and associated with Water Right #74-0054. During my years on the ranch, I rode my horse all over the place, including the area between the ranch and Leadore and U.S. Highway 28. Until recently, I thought the acreage outside of our ranch boundary was all land administered by the Bureau of Land Management (BLM) because the land was completely undeveloped and only grazed during the summer and fall months. I remember how poor and underfed the cattle appeared, because the sagebrush flat provided little forage. There was no irrigated land as one would expect from the details described in the water right; therefore, it appears that there was no beneficial use of the water during the time frame that I was associated with the parcel.

If you need any additional information, please contact me at our office at (775) 826-8822.

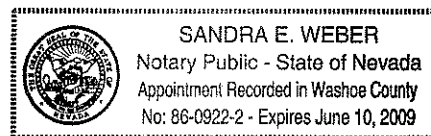

Sincerely,

Opal Adams
