 - ☒ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S): This water right properly constitutes an Idaho Code Sec. 42-243 Claim rather than a Section 42-1426 Enlargement, as demonstrated by the fact that Claimant asserts a 3.1 cfs increase in the rate of diversion. Section 42-1426 applies only where there is no increased rate of diversion. Consequently, because this water use began in 1980--after the mandatory permit requirement--it should be disallowed for failure to obtain a permit.
