Claimant Contact Log

Date 10-13-05 Remarks Agent initials

On 10-12-05 I visited with Earl Wilcox.
I gave him claim A22-7311 to consider signing and
paying the \$55 fee. He is giving the claim to his
son, Blaine Wilcox, to review (Blaine's phone - 356-0527)

This system is really one of Snake River Diversion,
(See photo of hradgate) + slough water (See photo
of Diesel engine + pump - 6")

One might be able to make the argument that the
Snake River water diverted into the slough is (A22-4020)
the May 1, 1951 water + license A22-7311 is
strictly slough water with a 12-26-1979 priority.

Document the evidence submitted/reviewed for the priority date claimed, include your analysis of the evidence:

No evidence presented but Earl Wilcox is sure he gave Ron Carlson an affidavit from former owner Louis (Lewis?) Bowen. I suggest looking in statutory claim file. Earl's son Blaine accepted an evidence of priority pamphlet and agreed to try and get an affidavit from a neighbor. Wilcox purchased this place about 1979 so he can't verify priority himself.

Note overlapping permit 22-7311. I explained that the permit gives them the water at an inferior priority.

$70 \text{ acres} \times 0.02 = 1.4 \text{ cfs.}$
 $120 \text{ nozzles} \times 6.19 \text{ GPM} (11/64 @ 50 \text{ psi}) \approx 743 \text{ gpm} \approx 1.65 \text{ cfs}$
 $(80 \text{ hp} \times 70\% \text{ efficiency} \times 3960) / (3.4 \text{ lift} + 5 \text{ ft friction} + 50 \times 2.31)$
