I. STATEMENT OF THE CASE

i. The Nature of the Proceedings

This controversy relates to the scope of the federal reserved water right for administrative purposes at administrative sites.

ii. Course of the Proceedings

The United States Department of Agriculture, Forest Service (hereinafter the “United States”) filed twelve claims for administrative sites located in remote areas of the Bitterroot, Boise, Payette, and Salmon-Challis National Forests.

These subcases were scheduled for evidentiary hearings on March 20, 2007 and May 15, 2007.

The State of Idaho opposed recognition of these federal reserved water claims because the affidavits filed in support of them are insufficient. The State of Idaho filed its *Notice of Participation* on May 25, 2007.

The District Court entered its *Order Setting Post-Hearing Briefing Schedule for Uncontested Federal Water Right Claims for Administrative Sites* on May 18, 2007.

The United States and State of Idaho filed a *Joint Motion to Amend Briefing Schedule* on June 22, 2007.

The District Court entered its *Order Granting Joint Motion to Amend Briefing Schedule* on June 25, 2007.

iii. Statement of Facts

These twelve federal reserved water right claims purportedly provide water to nine separate administrative sites. The claims for these nine sites may be summarized as follows:

Bernard Creek Administrative Site (water right no. 77-10795)

The Notice of Claim describes the point of diversion as follows: T. 19 N., R. 14 E., sec. 22, SWNW B.M.

The Notice of Claim describes the place of use as follows: T. 19 N., R. 14 E., sec. 22, Lot 3 (SENW) B.M.

The United States described this administrative site as follows:

The United States filed this Claim for use in association with Bernard Guard Station, an administrative site located in a remote part of the Salmon-Challis National Forest on the Salmon River within the congressionally designated National Wild and Scenic River Corridor. The administrative site includes a residence, a log tack and tool building, a pasture and other capital improvements. It is normally used by a wilderness trail crew during the summer. . . . Trail maintenance to assure access for management is important in this remote country. The trail crew also makes contact with people throughout the summer and reports on other activities and situations they encounter.

Affidavit of Stephen J. Kimball-77-10795, hereinafter referred to as the “*Kimball Affidavit*,” at 2-3.

Public Land Order 1564 designated the Bernard Creek Administrative Site as the following lands: T. 19 N., R. 14 E., sec. 15, lot 7 (SESW); sec. 22, Lots 2 (NENW) and 3 (SENW), B.M.. A true and certified copy of Public Land Order 1564 is lodged with this brief as Idaho Exhibit 1. A true and certified copy of the Master Title Plat for T. 19 N., R. 14 E. B.M. is lodged with this brief as Idaho Exhibit 2. The Master Title Plat depicts the geographic location of the Bernard Creek Administrative Site. True and certified copies of the Historical Indices for T. 19 N., R. 14 E. B.M. are attached as Idaho Exhibit 3. The Historical Indices note the creation of the Bernard Creek Administrative Site. The place of use described in the Notice of Claim is within the Bernard Creek Administrative Site; **the point of diversion described in the Notice of Claim is not within the Bernard Creek Administrative Site.**

Yellowjacket Administrative Site (77-10798)

The Notice of Claim describes the point of diversion as follows: T. 19 N., R. 17 E., sec. 9, SWNW.

The Notice of Claim describes the place of use as follows: T. 19 N., R. 17 E., sec. 8, SENE.

The United States described this administrative site as follows:

The administrative site includes a dwelling, a bunkhouse, a garage, a workshop, a barn, a corral and other capital improvements. It is normally used by a trail crew during the summer. It is also used when there are fires in the area such as in fire outbreaks in 2001 and 2002.

Affidavit of Terry Hershey-77-10798, hereinafter referred to as the “*Hershey Affidavit*,” at 2

Public Land Order 1564 designated the Yellowjacket Administrative site as the following lands: T. 19 N., R. 17 E., sec. 9, NW¹/₄NW¹/₄. A true and certified copy of Public Land Order 1564 is lodged with this brief as Idaho Exhibit 1. A true and certified copy of the Master Title Plat for T. 19 N., R. 17 E. B.M. is lodged with this brief as Idaho Exhibit 4. A true and certified copy of the Historical Index for T. 19 N., R. 17 E. B.M. is lodged with this brief as Idaho Exhibit 5. The Master Title Plat provides the geographic location of the Yellowjacket Administrative Site, and the Historical Index notes the creation of the site. **Neither the point of diversion nor the place of use described in the Notice of Claim is within the Yellowjacket Administrative Site.**

Loon Creek Administrative Site (77-11537)

The Notice of Claim describes the point of diversion as follows: T. 14 N., R. 13 E.; sec. 13, SESW B.M.

The Notice of Claim describes the place of use as follows: T. 14 N, R., 13 E. sec. 14, SWSW B.M.

The United States described this administrative site as follows:

The administrative site is a fence compound that includes three dwellings, a garage/workshop, a garage/storage building, a gas house, a barn, a corral and other

capital improvements. It is now customarily used by wilderness and recreation personnel and trail crews. It is also used by other personnel as needed and was used in 2006 for fighting fires.

Affidavit of Thomas A Montoya-77-11537, hereinafter referred to as the “*First Montoya Affidavit*,” at 2.

A true and certified copy of the Master Title Plat for T. 14 N., R. 13 E. B.M. is lodged with this brief as Idaho Exhibit 6. True and certified copies of the Historical Indices for T. 14 N., R. 13 E. B.M. are lodged with this brief as Idaho Exhibit 7. A withdrawal and reservation for the Loon Creek Administrative Site does not appear of record on the Master Title Plat or in the Historical Indices for T. 14 N., R. 13 E., section 13. B.M.

Capehorn Administrative Site (77-11569)

The Notice of Claim describes the point of diversion as follows: T. 12 N., R. 12 E., sec. 7, SWSE B.M.

The Notice of Claim describes the place of use as follows: T. 12 N., R. 11 E., sec. 13, SENE B.M.

The United States described this administrative site as follows:

The administrative site includes two dwellings, a bunkhouse, a barn/workshop building, a shed/fire cache, a pump house, a gas house and other capital improvements. A recreation guard is normally stationed at the site during the summer. Other employees use this site as needed throughout the summer. For example, Cape Horn Guard Station has been extensively used for fire operations in 2001 and 2006.

Affidavit of Thomas A. Montoya-77-11569, hereinafter referred to “*Second Montoya Affidavit*,” at 2.

Public Land Order 1376 designated the Cape Horn Administrative Site as lands within section 19 and 30 of T. 12 N., R. 12 E. B.M.. A true and certified copy of Public Land Order 1376 is lodged with this brief as Idaho Exhibit 8. A true and certified copies of the Master Title Plats for T. 12 N., R. 11 E. B.M. and for T. 12 N., R. 12 E. B.M. are lodged with this brief as Idaho Exhibits 9

and 10. True and certified copies of the Historical Indices for T. 12 N., R. 11 E. B.M. and for T. 12 N., R. 12 E., B.M. (two pages) are lodged with this brief as Idaho Exhibits 11 and 12. Idaho Exhibit 12 notes the creation of the administrative site. A true and certified copy of a letter dated July 24, 1974 is lodged with this brief as Idaho Exhibit 13.

The letter dated July 24, 1974 states as follows:

We have been in the process of completely reviewing the land status of National Forest lands and converting over to a new status record. During this reconversion project, we noticed the lands described in Public Land Order 1576 [sic], dated December 20, 1956, Serial No. Idaho 05384, were based on the old projected landlines in unsurveyed area. Subsequent to this withdrawal, the Bureau of Land Management constructed new protraction diagrams which have changed the location of the projected landlines in many areas. In order to show these withdrawals in relation to their on-the-ground position with the new projected landlines. It has become necessary to redescribe the legal subdivisions. This is a request to amend the description of some of the sites included in PLO 1376 so they will conform with the new protraction diagrams and can be shown in their proper relative position on you master status plats and our status records. [The Cape Horn Administrative Site has a different legal description in sections 19 and 30 of Twp. 12 N., Rge. 12 E., B.M.]

Idaho Exhibit 13 at 1. The legal description that appears in the letter dated July 24, 1974 is the latest legal description of record. **The legal descriptions of the point of diversion and places of use in the Notice of Claim are not within the legal description of the Cape Horn Administrative Site.**

Warren Administrative Site (77-11657)

The Notice of Claim describes the point of diversion as follows: T. 22 N., R. 6 E., sec. 11, SENE B.M.

The Notice of Claim describes the place of use as follows: T. 22 N., R. 6 E., sec. 11, SENE B.M.

The United States described this administrative site as follows:

The administrative site includes a dwelling, a workcenter/administration building, a bunkhouse, a wash house, two garages, a gas house, a barn, a corral and other capital improvements. It is used every year for administration of National Forest resource

management programs. Personnel utilize water at this site for administrative purposes. Fire personnel housed at this site include an engine crew and a hand crew.

Affidavit of A. Shane Jeffries-77-11657, hereinafter referred to as the "Jeffries Affidavit," 2.

The original Warren Administrative Site was withdrawn in accordance with a letter dated February 26, 1908. This original withdrawal was revoked in accordance with a letter dated August 21, 1909. True and certified copies of the letters dated February 26, 1908 and August 21, 1909 are lodged with this brief as Idaho Exhibits 14 and 15. Later, Public Land Order 2931 designated the Warren Administrative Site as four separate units with metes and bounds descriptions within T. 22 N., R. 6 E. B.M. Unit No. 1 consists of 0.74 acres within sections 11 and 12; Unit No. 2 consists of 1.29 acres within sections 11 and 12; Unit No. 3 consists of 0.91 acres within section 11; Unit No. 4 consists of 0.35 acres within section 12. The sum of the acreage in these four units is 3.29 acres. A true and certified copy of Public Land Order 2931 is lodged with this brief as Idaho Exhibit 16. True and certified copies of the Master Title Plat and of the supplemental plats for T. 22 N., R. 6 E. B.M. are lodged with this brief as Idaho Exhibit 17, which consists of six sheets. Idaho Exhibit 17 locates the four units of the Warren Administrative Site. True and certified copies of the Historical Indices for T. 22 N., R. 6 E. B.M. are lodged with this brief as Idaho Exhibit 18.

The legal descriptions of the point of diversion and places of use in the Notice of Claim include lands that are not within the legal description of the Warren Administrative Site.

Landmark Administrative Site (77-13915, 77-13918, and 77-13919)

Notice of Claim No. 77-13915 describes the point of diversion as follows: T. 15 N., R. 7 E., sec. 1, SESE B.M.

Notice of Claim No. 77-13918 describes the point of diversion as follows: T. 15 N., R. 7 E., sec. 12, SENE B.M.

Notice of Claim No. 77-13919 describes the point of diversion as follows: T. 15 N., R. 7 E., sec. 1, SESE B.M.

The Notice of Claim Nos. 77-13915, and 77-13919 describe the place of use as follows: T. 15 N., R. 7 E., sec. 1, SESE; sec. 12, NENE B.M. and T. 15 N., R. 8 E., sec. 7, Lot 1 (NWNW) B.M.

Notice of Claim No. 77-13918 describes the place of use as follows: T. 15 N., R. 7 E., sec. 12, NENE B.M.

The United States described this administrative site as follows:

The administrative site includes five dwellings, six garages, a warehouse, a shop, a shower house, a wood shed, a barn, a tack shed and other capital improvements. A fire crew is normally housed at this site each summer. In addition, it is also used by trail crews, timber marking crews and other employees as needed. In 2006 it was used during the Summit Lake fire as a base for a type 2 operations chief.

Affidavit of Carol McCoy Brown-77-13915, hereinafter referred to as the “*First McCoy-Brown Affidavit*,” at 2.

True and certified copies of the Master Title Plats for T. 15 N., R. 7 E. B.M. and for T. 15 N., R. 8 E. B.M. are lodged with this brief as Idaho Exhibits 19 and 20. True and certified copies of the Historical Indices for T. 15 N., R. 7 E. B.M. and T. 15 N., R. 8 E. B.M. are lodged with this brief as Idaho Exhibit 21 and 22. The Historical Indices indicate that Serialized Case File No. I-05278 on July 13, 1953 proposed a withdrawal and reservation of the Landmark Ranger Station. The Bureau of Land Management partially terminated the withdrawal proposed in Serialized Case File No. I-05278 in a termination order effective on September 6, 1983; the Bureau of Land Management terminated the remaining lands in the withdrawal proposed in Serialized Case File No. I-05278 in a termination order effective on December 17, 1990. True and certified copies of the termination orders are attached as Idaho Exhibits 23 and 24.

Big Creek Administrative Site (77-13920)

The Notice of Claim describes the points of diversion as follows: T. 21 N., R. 9 E., sec. 26, NWSW and SWNE.

The Notice of Claim describes the place of use as follows: T. 21 N., R. 9 E., sec., 23, SWSE; sec. 26 NWNE, SWNE, SENW, NESW, and NWSE B.M.

The United States described this administrative site as follows:

The administrative site includes a residence, a cabin, two apartments, a warehouse, a gas house, a barn, a nearby landing strip, pasture and other capital improvements. It is used every year for administration of National Forest resource management programs. . . . Personnel are normally housed at the site include a wilderness technician, a wilderness patrol, and recreation and trail crews.

Affidavit of Clem Pope-77-13920, hereinafter referred to "Pope Affidavit," at 2-3

Public Land Order 2931 designated the Big Creek Administrative Site as a metes and bounds description which when surveyed would be within the S $\frac{1}{2}$ SE $\frac{1}{4}$ of section 23, and the W $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ of section 26, all in T 21 N., R. 9 E. B.M. Public Land Order 3070 designated the Big Creek Public Service Site as "recreation areas and public service sites" in a metes and bounds description within unsurveyed section 26 and the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of section 35, all within T. 21 N., R. 9 E. B.M. A true and certified copy of Public Land Order No. 2931 is lodged with this brief as Idaho Exhibit 16. A true and certified copy of Public Land Order 3070 is lodged with this brief as Idaho Exhibit 25. A true and certified copy of the Master Title Plat for T. 21 N., R. 9 E. B.M. is lodged with this brief as Idaho Exhibit 26. True and certified copies of the Historical Indices for T. 21 N., R. 9 E. B.M. are lodged with this brief as Idaho Exhibit 27. One of the two points of diversion is within the legal description of the Big Creek Administrative sites. The legal description of the place of use in the Notice of Claim is only partially within the legal description of the Big Creek Administrative sites.

Johnson Creek Administrative Site (77-13922 and 77-13923)

Notice of Claim No. 77-13922 describes the point of diversion as follows: T. 18 N., R. 8 E., sec. 4, NWSE B.M.

Notice of Claim No. 77-13923 describes the point of diversion as follows: T. 18 N., R. 8 E., sec. 4, SESE and SWSE B.M.

Notice of Claim Nos. 77-13922 and 77-13923 describe the place of use as follows: T. 18 N. R. 8 E., sec. 4 NWSE, B.M.

The United States described this administrative site as follows:

The administrative site includes a two story cabin, a garage, a storage building, a horse pasture, and other capital improvements. A recreation person is normally housed at this site each summer. It is also used by other employee throughout the year as needed. It was used as a fire camp during the recent fire campaigns in 2004 and 2006.

Affidavit of Carol McCoy Brown-77-13922, hereinafter referred to as the “*Second McCoy-Brown Affidavit*,” at 2.

A true and certified copy of the Master Title Plat for T. 18 N, R. 8 E., B.M. is lodged with this brief as Idaho Exhibit 28. True and correct copies of the Historical Indices for T. 18 N., R. 8 E. B.M. are lodged with this brief as Idaho Exhibit 29. The Historical Indices indicate that Serialized Case File No. I-05278 on July 13, 1953 proposed a withdrawal and reservation of the Johnson Creek Administrative Site. The Bureau of Land Management partially terminated the withdrawal proposed in Serialized Case File No. I-05278 in a termination order effective on September 6, 1983; the Bureau of Land Management terminated the remaining lands in the withdrawal proposed in Serialized Case File No. I-05278 in a termination order effective on December 17, 1990. True and certified copies of the termination orders are attached as Idaho Exhibits 23 and 24.

Swet Lake Cabin Administrative Site (water right no. 77-13925)

The Notice of Claim describes the point of diversion as follows: T. 25 N., R. 13 E., sec. 10, SENE.

The Notice of Claim describes the place of use as follows: T. 25 N., R. 13 E., sec. 10, NENE B.M..

The United States described this administrative site as follows:

The administrative site includes a cabin, a storage building and other capital improvements. It is used every year for administration of National Forest resource management programs. Personnel utilize water at this site for administrative purposes. Wilderness rangers and trail maintenance crews normally use this site. Other personnel also use this site as needed in the normal course of their duties.

Affidavit of David M. Campbell-77-13925, hereinafter referred to as "*Campbell Affidavit*," at 2.

A true and certified copy of the Master Title Plat for T. 25 N, R. 13 E., B.M. are lodged with this brief as Idaho Exhibit 30. True and correct copies of the Historical Indices for T. 25 N., R. 13 E. B.M. are lodged with this brief as Idaho Exhibit 31. A withdrawal and reservation for the Swet lake Cabin Administrative Site does not appear of record on the Master Title Plat or in the Historical Indices for T. 25 N, R. 13 E. B.M.

ARGUMENT

I. THE UNITED STATES BEARS THE BURDEN OF PRODUCTION AS WELL AS THE ULTIMATE BURDEN OF PROOF FOR EACH ELEMENT OF A CLAIMED FEDERAL RESERVED WATER RIGHT.

Idaho Code § 42-1411A sets forth the procedures for determination of water rights established under federal law. Idaho Code § 42-1411A(12) states, as follows:

Each claimant of a water right established under federal law has the ultimate burden of persuasion for each element of a water right. Since no independent review of the notice of claim has occurred as provided for water rights acquired under state law in a director's report, a claimant of a water right established under federal law has the burden of going forward with the evidence to establish a prima facie case for the water right established under federal law. All such proceedings

shall be governed by the Idaho rules of civil procedure and the Idaho rules of evidence.

Accordingly, the United States fears the burden of production and ultimate burden of proof for the federal reserved water right.

II. THE UNITED STATES DOES NOT POSSESS A FEDERAL RESERVED WATER RIGHT FOR SECONDARY USES, INCLUDING AESTHETIC, ENVIRONMENTAL, RECREATION, STOCKWATERING, WILDERNESS, TRAIL AND OTHER SECONDARY USES OF WATER AT ITS VARIOUS ADMINISTRATIVE SITES.

A. Introduction

The State of Idaho raised the concern that the affidavits filed by the United States were describing secondary uses for a couple of reasons. First, it wanted to point out that the description of a water use for a secondary purpose in an affidavit in support of a federal reserved water right did not, in some manner, sanction the use of a federal reserved water right for those secondary purposes. The decree of this court for administrative uses at a federal administrative site on lands administered by the U.S. Forest Service did not, and could not, alter the scope of the federal reserved water right as defined by the U. S. Supreme Court in *United States v. New Mexico*, 438 U.S. 696 (1978). Second, the description of water usage for secondary purposes at the administrative sites for these subcases was especially blatant in the affidavits filed by the United States. The State of Idaho wanted to put the United States on notice that such a description did not operate to amend the scope of federal reserved water right for these administrative sites.

B. The U.S. Supreme Court described in *United States v. New Mexico* a very narrow federal reserved water right.

In *United States v. New Mexico*, 438 U.S. 696 (1978), the United States Supreme Court entered the definitive opinion on the scope of the federal reserved water rights for lands withdrawn and reserved as national forests. A brief review of that opinion is necessary to decide

this case. The Court articulated a method of analysis for determining whether the United States possessed a federal reserved water right for a particular reservation, for a particular purpose and in a specific amount. The Court began by stating that the issue of the amount of a federal reserved water right, if any, “is a question of implied intent and not power.” 438 U.S. at 698. The Court further noted that Congress did not intend to relinquish its authority to reserve unappropriated water in the future for use on appurtenant land withdrawn from the public domain for specific federal purposes.” *Id.* The Court concluded as follows:

Each time this Court has applied the ‘implied-reservation-of-water doctrine,’ it **has carefully examined** both the asserted water right and the specific purposes for which the land was reserved, and **concluded that without the water the purposes of the reservation would be entirely defeated.**

...

This careful examination is required both because the reservation is implied, rather than expressed, and because of the history of congressional intent in the field of federal-state jurisdiction with respect to allocation of water. Where Congress has expressly addressed the question of whether federal entities must abide by state water law, it has almost invariably deferred to the state law.

438 U.S. at 700-702 (emphasis added). The Court also noted that Congress has authorized the appropriation of moneys “for the investigation and establishment of water rights, including the purchase thereof, or of lands or interests in land or rights-of-way for use and protection of water rights necessary or beneficial in connection with the administration and public use of the national forests.” 438 U.S. at 703.

The Court then applied these principles to claims of the United States from the Rio Mimbres for the Gila National Forest. The Court concluded that “Congress intended national forests to be reserved for only two purposes—‘[t]o conserve the water flows and to furnish a continuous supply of timber for the people.” 438 U.S. at 707. The Court then concluded that the national forests were not to be reserved for aesthetic, environmental, recreational or wildlife-preservation purposes. 438 U.S. at 708. Whether stockwatering was an authorized reserved use

was also addressed later in the context of private persons watering their stock on national forest lands under grazing permits. The Court agreed with the Supreme Court of New Mexico that such uses should be adjudicated to the grazing lessees. 438 U.S. at 716.

- C. The majority of the water uses claimed at the administrative site here are for secondary purposes for which a federal reserved water right does not exist.

The following table summarizes the United States' claims for a federal reserved water right under an "administrative purpose of use" as follows:

Water right number	Name of Site	Description	Water uses implied from description
77-10795	Bernard Creek	"The administrative site includes a residence, a log tack and tool building, a pasture and other capital improvements. It is normally used by a wilderness trail crew during the summer." <i>Kimball Affidavit</i> , at 2.	Domestic for trail crew; irrigation of pasture, and stock watering.
77-10798	Yellowjacket	"The administrative site includes a dwelling, a bunkhouse, a garage, a workshop, a barn, a corral, and other capital improvements. It is normally used by a trail crew during the summer." <i>Hershey Affidavit</i> , at 2.	Domestic for trail crew; and stock watering.
77-11537	Loon Creek	"The administrative site is a fence compound that includes three dwellings, a garage/workshop, a garage/storage building, a gas house, a barn, a corral and other capital improvements. It is now customarily used by wilderness and recreation personnel and trail crews." <i>First Montoya Affidavit</i> , at 2.	Domestic for wilderness, trail, and recreation crew; and stock watering.
77-11569	Cape Horn	"The administrative site includes two dwellings, a bunkhouse, a barn/workshop building, a shed/fire cache, a pump house, a gas house and other capital improvements. A recreation guard is normally stationed at the site during the summer." <i>Second Montoya Affidavit</i> , at 2.	Domestic for recreation crew; and stock watering.
77-11657	Warren	"The administrative site includes a dwelling, a workcenter/ administration building, a bunkhouse, a wash house, two garages, a gas house, a barn, a corral and	Domestic use for a trail crew and for a fire crew and stock watering.

		other capital improvements. It is used every year for administration of National Forest resource management programs. . . . Fire personnel housed at this site include an engine crew and a hand crew. <i>Jeffries Affidavit</i> at 2.	
77-13915, 77-13918, 77-13919	Landmark	“The administrative site includes five dwellings, six garages, a warehouse, a shop, a shower house, a wood shed, a barn, a tack shed and other capital improvements. A fire crew is normally housed at this site each summer. In addition, it is also used by trail crews, timber marking crews and other employees as needed.” <i>First McCoy-Brown Affidavit</i> , at 2.	Domestic use for a trail crew, for a timber marking crew and for a fire crew and stock watering.
77-13020	Big Creek	“The administrative site includes a residence, a cabin, two apartments, a warehouse, a gas house, a barn, a nearby landing strip, pasture and other capital improvements. It is used every year for administration of National Forest resource management programs. . . . Personnel are normally housed at the site include a wilderness technician, a wilderness patrol, and recreation and trail crews.” <i>Pope Affidavit</i> , at 2-3.	Domestic use for a wilderness technician, a wilderness patrol, and recreation and trail crews, irrigation of pasture, and stock watering.
77-13922 77-13923	Johnson Creek	“The administrative site includes a two story cabin, a garage, a storage building, a horse pasture, and other capital improvements. A recreation person is normally housed at this site each summer.” <i>Second McCoy-Brown Affidavit</i> , at 2.	Domestic use for a recreation guard and for a trail crew, irrigation of pasture, and stock watering.
77-13925	Swet Lake Cabin	“The administrative site includes a cabin, a storage building and other capital improvements. It is used every year for administration of National Forest resource management programs. Personnel utilize water at this site for administrative purposes. Wilderness rangers and trail maintenance crews normally use this site.” <i>Campbell Affidavit</i> , at 2.	Domestic use for wilderness rangers and for a trail crew, and stock watering.

Most of the affidavits filed by the United States also note that each location may be used by fire personnel on an as needed basis.

The United States argues that the federal reserved water right extends to water for trail crews, recreation guards, and similar personnel that roam the forests, who make contact with people, because those persons protect the forests from depredations and destruction. *United States' Memorandum in Support of its Federal Reserved Water Right Claims*, at 9. The United States' argument has ignored the analysis of the U.S. Supreme Court in *United States v. New Mexico*. The Court in that case began its analysis by carefully examining "the asserted water right and the specific purposes for which the land was reserved and concluded that without the water the purposes of the reservation would be entirely defeated." 438 U.S. at 700. The Court concluded that the national forests were not reserved for "aesthetic, environmental, recreational or wildlife preservation purposes." 438 U.S. at 708.

The United States essentially wants to reargue *United States v. New Mexico*. The United States had the opportunity in *United States v. New Mexico* to make the argument that it makes here: The personal contact that a recreation guard, a trail crew, or a wilderness guard makes with the public wandering about the national forest lands furthers the primary purpose of protecting the forest, and thus those uses promote the primary purpose of providing "a continuous supply of timber." But, the U. S. Supreme Court did not provide an exception that reaches the result described by the United States.

The practical result here is that the use of water at an administrative site may at times promote the primary purpose of providing "a continuous supply of timber." The best example would be during periods when the administrative site is used for fire suppression, but at other times, the use of water is for secondary purposes where the United States must comply with state law.¹

¹ Compliance with state law for most of the administrative sites would not present a significant issue. The State of Idaho created its mandatory application, permit, and license system fairly late in the state's history. The cut-off date

III. UNITED STATES DOES NOT POSSESS A FEDERAL RESERVED WATER RIGHT FOR ADMINISTRATIVE USES FOR SITES THAT ARE NOT WITHDRAWN AND RESERVED AS AN ADMINISTRATIVE SITE.

Congress enacted the Federal Land Policy and Management Act of 1976, Pub. L. 94-579, 90 Stat. 2743, hereinafter referred to as “FLMPA,” on October 21, 1976. FLMPA provided the U.S. Department of the Interior, Bureau of Land Management, hereinafter referred to as the “BLM,” a comprehensive statute on the administration of public lands.² Section 201(a) states: “The Secretary shall prepare and maintain on a continuing basis an inventory of all public lands and their resource and other values This inventory shall be kept current so as to reflect changes in conditions and to identify new and emerging resource and other values.” 43 U.S.C. 1711(a).

FLPMA also defines the term “withdrawal” as follows:

The term ‘withdrawal’ means withholding an area of Federal land from settlement, sale location, or entry, under some or all of the general land laws, for the purpose of limiting activities under those laws in order to maintain other public values in the are or **reserving the area for a particular public purpose or program; . . .**

43 U.S.C. § 1702(j) (Supp. 2007) (emphasis added). Section 204 of FLPMA sets forth the procedures for withdrawals. Subsection (g) of section 204 states: “All applications for withdrawal pending on the date of approval of this Act shall be processed and adjudicated to conclusion within fifteen years of the date of approval of this Act, in accordance with the

for beneficial use claims to ground water is March 25, 1963. Act of March 25, 1963, ch. 216, 1963 Idaho Sess. Laws 623. The cut-off date for beneficial use claims based on changes to water rights is May 26, 1969. Act of March 27, 1969, ch. 303, 1969 Idaho Sess. Laws 905. The cut-off date for beneficial use claims to surface water is May 20, 1970. Act of March 24, 1971, ch. 177, 1971 Idaho Sess. Laws 843. Accordingly, the United States could file beneficial use claims for its domestic, stock watering, and irrigation uses at these administrative sites. If it fails to do so for these secondary uses, the consequences are that the domestic and stock watering uses could still continue after the conclusion of the SRBA, since claimants were not required to file notices of claim for such uses. The primary adverse consequence from failing to file beneficial use claims at these administrative sites for the United States would concern the irrigation of pasture and meadow hay lands. Since irrigation is not within the scope of the federal reserved water right, that use would be foreclosed after the conclusion of the SRBA in the absence of a beneficial use claim for irrigation.

² The Bureau of Land Management was established by Reorganization Plan Numbered 3 of 1946, § 403, 60 Stat. 1100. The General Land Office merged with the Grazing Service to become the Bureau of Land Management.

provisions of this section. The segregative effect of any application not so processed shall terminate on that date.” 43 U.S.C. § 1714(g).

Here, the United States has claimed an administrative purpose of use for the reserved water right for each of the designated administrative sites. Assuming that the actual uses of water at the administrative site were within the scope of the federal reserved water right, the State of Idaho would have no objection to the claimed water right, if the point of diversion and place of use were within the geographic location of an administrative site as shown on the records of the BLM. The administrative actions of the U.S. Forest Service in requesting and of the BLM in entering a public land order that withdraws the public land for an administrative site evidences **“reserving the area for a particular public purpose or program.”**

The State of Idaho collected and offered as exhibits the Master Title Plats, Historical Indices, and other records maintained by the BLM related to the various administrative sites at issue in this matter. Simply put, eleven of the water rights at issue here are not completely within a designated administrative site as shown on the records of the BLM. The remaining water right, 77-11657, for the Warren Administrative Site is over-inclusive, because most of the land within its place of use is outside the few acres found within the administrative site as defined by public land order. Consequently, eleven of the twelve water rights at issue here cannot be decreed as federal reserved water rights, as they are presently claimed. The remaining water right would have to be reduced substantially in geographic area. The problems with each site are explained in more detail below:

Bernard Creek Administrative Site (water right no. 77-10795)

Public Land Order 1564 designated the Bernard Creek Administrative Site. Idaho Exhibit 1. A comparison of the notice of claim with the legal description in Public Land Order 1564 indicates that the place of use from the notice of claim is within the Bernard Creek

Administrative Site. The point of diversion is not. Statement of Facts, hereinafter referred to “SOF,” at 3.

Yellowjacket Administrative Site (77-10798)

Public Land Order 1564 designated the Yellowjacket Administrative site. Neither the point of diversion nor the place of use described in the Notice of Claim is within the legal description of the Yellowjacket Administrative site. SOF, at 4.

Loon Creek Administrative Site (77-11537)

The Notice of Claim for water right no. 77-11537 describes the point of diversion and place of use within section 13 of T. 14 N., R. 13 E. B.M. A withdrawal and reservation for the Loon Creek Administrative Site does not appear of record on the Master Title Plat or in the Historical Indices for T. 14 N., R. 13 E. B.M. SOF, at 4-5.

Cape Horn Administrative Site (77-11569)

Public Land Order 1376 designated the Cape Horn Administrative Site. Neither the point of diversion nor the place of use is within the legal description of the Cape Horn Administrative Site. SOF, at 5-6.

Warren Administrative Site (77-11657)

Public Land Order 2931 designated the Warren Administrative Site as four separate units with a total area of 3.29 acres. The Notice of Claim describes the point of diversion and place of use as a forty acre parcel. SOF at 6-7. Thus, the Notice of Claim includes lands that are not within the legal description of the Warren Administrative Site. SOF at 6-7.

Landmark Administrative Site (77-13915, 77-13918, and 77-13919)

The United States proposed a Landmark Administrative Site in the 1950s. Ultimately, the U.S. Forest Service withdrew the request for a withdrawal, and the Bureau of Land Management terminated the proposed withdrawal in 1990. SOF at 7-8.

Big Creek Administrative Site (77-13920)

Public Land Order 2931 designated the Big Creek Administrative Site as a metes and bounds description, and Public Land Order 3070 designated the Big Creek Public Service Site also as a metes and bounds description. One of the two points of diversion is within the Big Creek Administrative sites. The legal description of the place of use is only partially within the legal description of these Big Creek Administrative Sites. SOF, at 8-9.

Johnson Creek Administrative Site (77-13922 and 77-13923)

The United States proposed a Johnson Creek Administrative Site in the 1950s. Ultimately, U.S. Forest Service withdrew the request for withdrawal, and the Bureau of Land Management terminated the proposed withdrawal in 1990. SOF at 9-10.

Swet Lake Cabin Administrative Site (water right no. 77-13925)

The Notice of Claim for water right no. 77-13925 describes the point of diversion and place of use as being with section 10 of T. 25 N., R. 13 E. B.M. A withdrawal and reservation for the Swet Lake Cabin Administrative Site does not appear of record on the master Title Plat or in the Historical Indices for T. 25 N., R. 13 E. B.M. SOF at 10-11.

The water rights for none of the administrative site can be decreed as claimed. The water right for the Warren Administrative Site (77-11657) needs to be reduced in size to the four units of that site. The proposed withdrawals for two of the administrative sites have been terminated, and those water rights should be decreed as disallowed (water right nos. 77-13915, 77-13918, 77-13919, 77-13922, and 77-13923). Two of the administrative sites do not appear of record, and those water rights should be decreed as disallowed (77-11537 and 77-13925). The remaining administrative sites do appear of record, but the notices of claim need to be conformed to the legal descriptions in the respective public land orders.

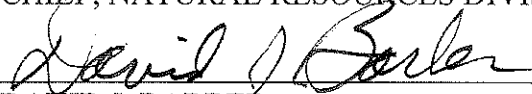

CONCLUSION

For all the reasons stated, the district court should conclude that federal reserved water rights at forest service administrative sites are limited to the water uses that are determined to be primary purposes in accordance with *United States v. New Mexico*. The district court should further conclude that such federal reserved water rights for administrative uses are limited to those geographic areas that have been withdrawn as administrative sites on records of the BLM.

Appendix—Public Land Orders

[Public Land Order 1564]

[Idaho 05284]

IDAHO

RESERVING LANDS WITHIN SALMON NATIONAL FOREST FOR USE OF FOREST SERVICE AS AD- MINISTRATIVE SITES AND RECREATION AREAS

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands within the Salmon National Forest in Idaho are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining but not the mineral-leasing laws, nor the act of July 31, 1947 (61 Stat. 681; 69 Stat. 387; 30 U. S. C. 801-604) as amended, and reserved for use of the Forest Service, Department of Agriculture as administrative sites and recreation areas:

Mr. William L. Mathews
Idaho State Director
Bureau of Land Management
550 West Fort Street
Boise, Idaho 83702

Dear Mr. Mathews:

We have been in the process of completely reviewing the land status of National Forest lands and converting over to a new status record. During this reconversion project, we noticed the lands described in Public Land Order 1576, dated December 20, 1956, Serial No. Idaho 05384, were based on the old projected landlines in unsurveyed areas. Subsequent to this withdrawal, the Bureau of Land Management constructed new protraction diagrams which have changed the location of the projected landlines in many areas. In order to show these withdrawals in relation to their on-the-ground position with the new projected landlines, it has become necessary to redescribe the legal subdivisions. This is a request to amend the description of some of the sites included in PLO 1376 so they will conform with the new protraction diagrams and can be shown in their proper relative position on your master status plats and our status records. The sites in need of change are as follows:

The area described aggregates 80 acres.

The size, shape, and on-the-ground location of the above-described sites have not been changed. We have just revised the legal subdivisions in order to properly locate the site in relation to the projected landlines on the new protraction diagrams we mentioned before. Also, a number of the remaining sites in the Public Land Order are located within the Sawtooth National Recreation Area. We are not requesting an amendment of these sites at this time because they are already withdrawn from mineral entry by the Sawtooth National Recreation Area Act.

If you have any further questions on these descriptions, please contact Paul Haarala of Recreation, Lands, and Minerals, Forest Service, in Ogden.

Sincerely,

✓ RICHARD L. HARRIS

[illegible]

1. The first step in the process of the development of the system is the analysis of the requirements. This step is crucial for the success of the project, as it allows the team to understand the needs of the users and the goals of the system. The analysis should take into account the current state of the system, the expected future changes, and the constraints of the project.

2. The second step is the design of the system. This step involves creating a detailed plan of the system, including the architecture, the data model, and the user interface. The design should be based on the requirements and should be flexible enough to accommodate changes.

3. The third step is the implementation of the system. This step involves writing the code for the system, testing it, and deploying it. The implementation should be done in a systematic and controlled manner, with regular testing and documentation.

4. The fourth step is the maintenance of the system. This step involves monitoring the system, making updates, and fixing bugs. The maintenance should be done on a regular basis to ensure the system is running smoothly and efficiently.

5. The fifth step is the evaluation of the system. This step involves assessing the performance of the system, comparing it to the requirements, and identifying areas for improvement. The evaluation should be done at the end of the project and should provide valuable feedback for future projects.

The process of the development of the system is a continuous one, and it is important to keep in mind that the system is always evolving. The team should be prepared to make changes and improvements as needed to keep the system up-to-date and relevant.

In conclusion, the process of the development of the system is a complex one, but it is also a rewarding one. By following the steps outlined above, the team can ensure that the system is developed in a systematic and controlled manner, and that it meets the needs of the users and the goals of the project.

[Serial No. I-05278]

**Partial Termination of Proposed
Withdrawal and Reservation of Lands;
Idaho**

July 29, 1983.

Notice of an application, serial
number I-05278, for withdrawal and
reservation of lands was published as
Federal Register Document No. 58-5332
on pages 5794-5802 of the issue for July
31, 1958. The applicant agency has
cancelled its application insofar as it
involved the lands described below.
Therefore, pursuant to the regulations
contained in 43 CFR Subpart 2091, such
lands will be at 9:00 a.m. on September
6, 1983, relieved of the segregative effect
of the above-mentioned application.

The lands involved in this notice of
termination are:

BILLING CODE 4310-84-M

Minerals Management Service**Intent To Change the Designation of Forms Used in the Oil and Gas and Sulphur Operations on the Outer Continental Shelf**

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of Intent.

SUMMARY: This Notice identifies those forms that are in the process of being redesignated as forms of the Minerals Management Service (MMS) and revised to reflect the transfer of all onshore activities to the Bureau of Land Management (BLM).

SUPPLEMENTARY INFORMATION: On January 19, 1982, the Secretary of the Interior reorganized the Department to form the MMS and transferred the functions previously conducted in the Conservation Division of the U.S. Geological Survey (USGS) to MMS. The regulations previously administered by the Conservation Division were amended to reflect this reorganization on June 30, 1982.

The Outer Continental Shelf (OCS) responsibilities of BLM were transferred to MMS on October 22, 1982. On December 3, 1982, the Secretary issued an order transferring all onshore minerals management functions of MMS, not relating to Royalty Management, to BLM.

Many of the forms currently used by the OCS program are numbered with USGS numbers. In some instances, portions of these forms request information germane only to onshore operations. Therefore, MMS plans to revise the forms now in use to reflect current MMS responsibilities.

As an initial step in this transition, a new number is being assigned to those forms listed in this Notice. The new form numbers are prefixed by the letters MMS which replace the prefix number 9 of the current forms. No change is being made to the contents of the current forms in this Notice. Revisions in content are being developed and will be published at a later date with a solicitation for comments. When the newly revised forms have been

approved by the Office of Management and Budget, they will be issued with the numbers described in this Notice. Pending completion of the new forms, MMS shall continue to use USGS forms but will refer to them by the new form numbers as listed below. The current form number appears in parenthesis.

Form number	Title
MMS-152 (9-152)	Monthly Report of Operations—Outer Continental Shelf.
MMS-330 (9-330)	Well-Completion or Recompletion Report and Log.
MMS-331 (9-331)	Sundry Notices and Reports on Wells.
MMS-331C (9-331C)	Application for Permit to Drill, Deepen, or Plug Back.
MMS-1886 (9-1886)	Reservoir Data—Request for Reservoir MER.
MMS-1867 (9-1867)	Request for Well Maximum Production Rate (MPR).
MMS-1868 (9-1868)	Well Potential Test Report.
MMS-1889 (9-1889)	Quarterly Oil Well Test Report.
MMS-1870 (9-1870)	Semi-Annual Gas Well Test Report.

The following regulations contain references to forms affected by the changes:

30 CFR 250.36	Applications for permit to drill, deepen, or plug back. Form MMS-331C.
30 CFR 250.38	Well records. Form MMS-331, Form MMS-331C.
30 CFR 250.92	Sundry notices and reports on wells. Form MMS-331C.
30 CFR 250.93	Monthly report of operations. Form MMS-152.
30 CFR 250.95	Well completion or recompletion report and log. Form MMS-330.

The following OCS Orders contain references to forms affected by the changes:

OCS Order No. 2	Drilling Operations. Form MMS-331C.
OCS Order No. 3	Plugging and Abandonment of Wells. Form MMS-331.
OCS Order No. 5	Production Safety Systems. Form MMS-330, Form MMS-331.
OCS Order No. 6	Well-Completion and Workover Operations. Form MMS-331.
OCS Order No. 7	Pollution Prevention and Control. Form MMS-331C.
OCS Order No. 11	Oil and Gas Production Rates, Prevention of Waste, and Protection of Cumulative Rights. Form MMS-152, Form MMS-1868, Form MMS-1867, Form MMS-1868, Form MMS-1863, Form MMS-1870.
OCS Order No. 12	Public Inspection of Records. Form MMS-152, Form MMS-330, Form MMS-331, Form MMS-331C, Form MMS-1863, Form MMS-1870.
