(208) 356-5190

This right is based upon an enlargement of Right Nos. 35-2314 (6.56cfs---410 acres) and 35-2441 (3.94cfs---197acres).

This right is for an enlargement of 24 acres within the POU described for this WR

WR Nos. 35-2314, 35-2441, 35-13601 are limited to a total combined diversion of 10.5cfs, 2428af

and are limited to irrigation of a combined total of 631 acres in a single irrigation season (607 = 24 enlargement = 631 acres)

WR Nos. 35-2314, and 35-2441 have the same POD as 35-13601.

All 3 wells are interconnected and used to irrigate all land from all 3 WRs listed above

No addition information on pump, Hp, etc was found on the S26 well.

1984, 1985 crop reports shows proof of additional "irrigated pasture"

(3 wells)

field exam conducted 6/26/1954 involving wells #1 & 2 (determined well location)

4.86 cfs (well #2)

Beneficial Use

Boyd E. Williams

Allowing enlargement, since well drilled prior 1963, enlargement was included to the system between 1963 - 1987 and proof was submitted (crop reports for 2 years), and due to no additional water being requested or diverted (which would require a new permit to be filed). Adding condition 42-1426 to preserve the priority position of those already existing rights.

1.7 cfs (well #1)
