Claimant Contact Log

Date Remarks Agent initials

10/6/04 Visited w/ Tom Winger. He explained
DD his system to me and showed
 me location of springs and ponds.

6/13/05 Visited again with Tom Winger
 Did another try to GPS 2 PDD locations

6/13/05
20 Visited with Tom Winger again.

Redo on gps at both pond & spring sites.
I put the tag on a power pole that is located
near the pond where the pump is located.
There is nothing permanent to put a tag
near the 2nd spring which is approx
200 yds south of the first location.
The nearest post or pole is 50 yds from
the spring so I didn't tag it. I hope
one tag on the north spring will do.

Date: _____

DD 6/13/05 2nd PDS for Tom Winger
claim A22-4096. Spring runs directly into a
ditch. Plastic dams are used to divert
from the ditch. When all dams are
removed, the water runs into other springs
and ultimately to Teton Creek & Teton River.

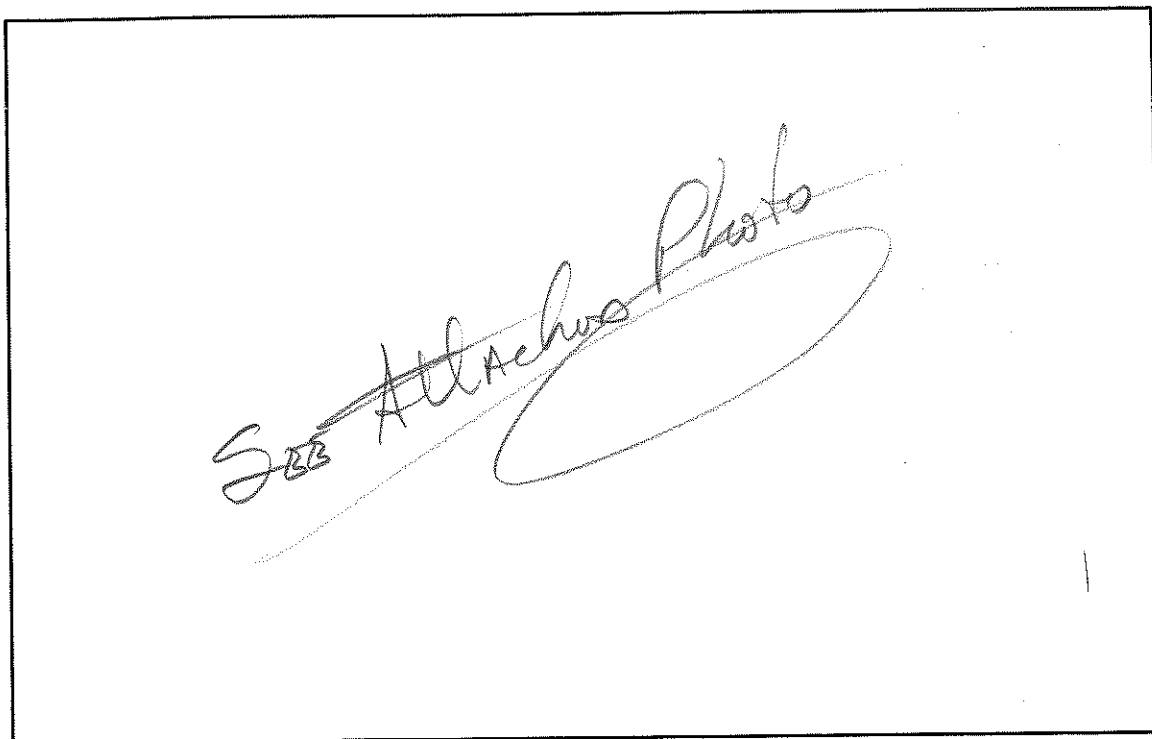

22-4096

Tom Wingers pond (springs) and
pump diversion

Other rights from this POD? _____

Transfers Pending or approved: _____

Document how the POD and Source were verified:

10/06/04 DO Field exam showed springs that are dammed up. A pump is used to irrigate the eastern part of this claim.

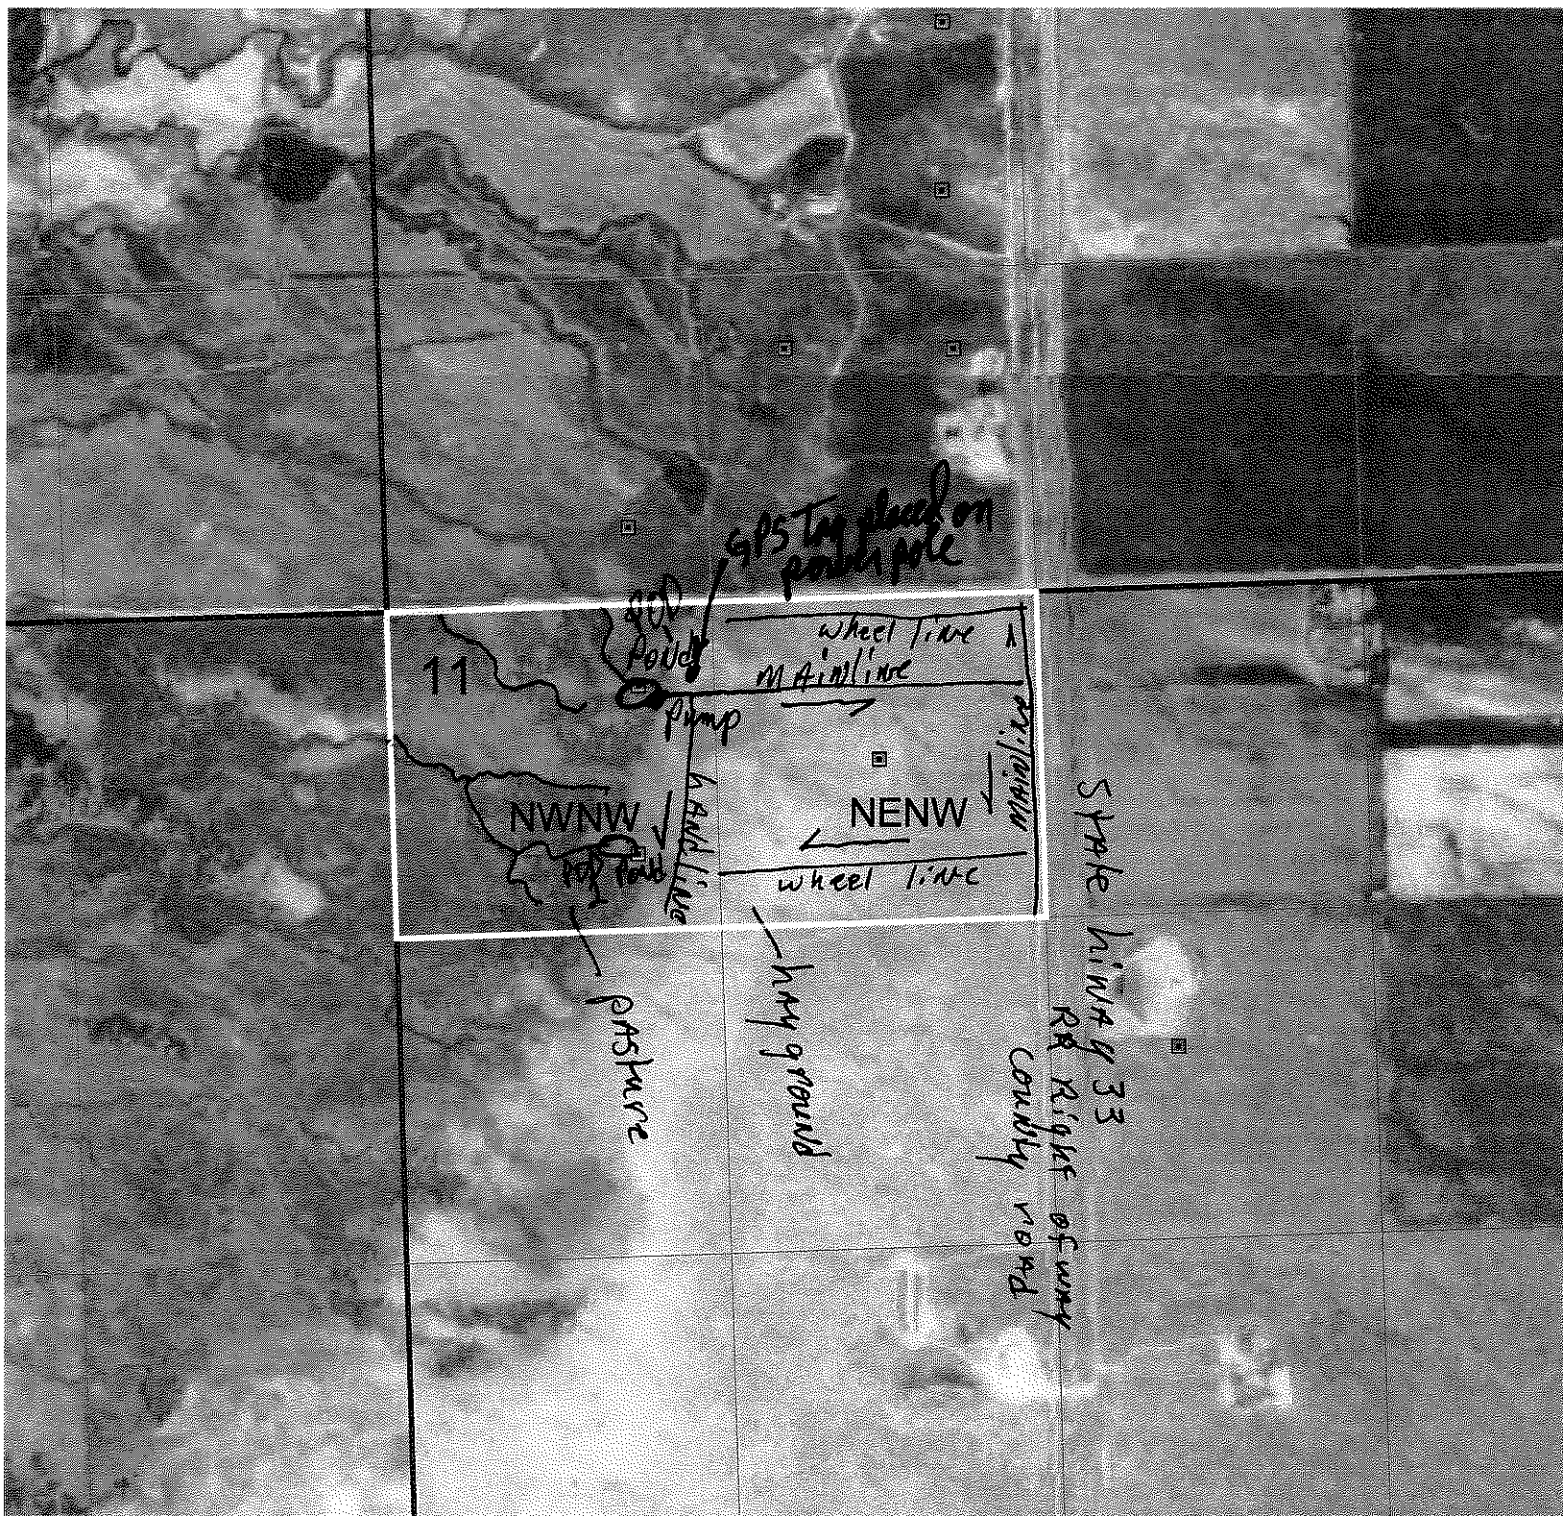

There are approx. 10 springs that come up in the NW 1/4 of Section 11. This bottom part seems to be irrigated with sub-irrigation.

6/13/05 A second spring is used as a POD and source. Field exam showed spring and ditch conveying water to ground to be irrigated. Plastic dams are moved down the ditch to divert water from the second spring. There is no headgate or diversion structure.

Document how the POU was verified:

10/6/04
DO Field exam shows that the NENW of Section 11 is irrigated with pump and wheel lines. The top 5-B acres of NWNW is irrigated with a hand line. The bottom or western part of NWNW of Sec 11 is irrigated with small streams from a series of springs.

6/13/04
DO The second POU is a spring that runs into a ditch that runs through the ground. Dams placed in this ditch also irrigate this claim.
