

TER-DEPARTMENT MEMO — 1

FROM Carter Fritschle

DATE 8-24-88

TO Files A22-07230 and A22-07103

SUBJECT Math errors resulted in incorrect totals for the Total Number of Acres Irrigated on these two claims. The number of acres per 40 acre tract are ~~not~~ "correct" in terms of what is actually being claimed.

Also, there are more acres not covered by the Canyon Creek Canal Co. than originally thought. Stevco paid for 1330 acres, and should have paid for 1451 acres. I think Stevco over paid their Carter Fritschle portion of the Canyon Creek Canal Co. acreage. Good luck figuring this all out.
