Water resulting from irrigation of Twin Falls Canal Company project lands may be discontinued due to changes in irrigation practices, delivery methods, and/or other actions beyond the control of the Company. The above remark is necessary to notify the claimant and the watermaster that water may not always be available to satisfy the right due to subsequent changes in the Company's delivery of water to its shareholders and/or changes in other operations. Additionally, this remark is necessary due to IDWR's failure to recognize TFCC's water right claim 47-4376.
