PODs on BLM:

It appears that the legal descriptions for PODs on BLM need to be adjusted to reflect current practices.

Old Diversion that no longer exists. It used to divert to a ditch to the W. edge of the field.

New Diversion; Reservoir in creek bottom. Should this be a POD and Point of Injection as the water goes back into the stream channel?

New Diversion to a ditch (Point of Rediversion?), that turns into a pipeline to the W. edge of the field.

Diversion that does not appear to exist and maybe should be described in the NESWSW of S20 where the water goes into a ditch in the E. side of the field? This is how I understand it from the backfile.
