The *Director's Report for Basin 63 Part II, Irrigation and Other, Reporting Area 13* was filed December 16, 2005, and included a recommendation for the above-captioned water right claim. No objections were filed. Following the Court's review of the uncontested recommendation for the claim, an issue was raised concerning the 13,000 gallon per day limitation remark being inconsistent with the rate of diversion for the water right. A hearing on the uncontested rights for Basin 63 was held December 19, 2006, but based on the discrepancy; a ***Partial Decree*** was not issued for the above-captioned water right. According to the Idaho Department of Water Resources the 13,000 gallon per day limitation should not be in the decree but that an acre-foot-per-year limitation should be included in lieu of the 13,000 gallon per day limitation.

Accordingly, the matter is remanded to the Idaho Department of Water Resources for further investigation and/or the filing of an amended director's report.
