Carter,

Enclosed are the affidavits you requested. Jon Moore faxed his to you on Monday but I am including it with my letter. Also, I sent copies to the court in Twin Falls.

Is there anything else we need to do? Have you read the court case again to the fact that this parcel of ground was covered? Even though it was filed on in 1957 and was being used, according to Ivy's sons, is it necessary to change the date to the court hearing?

Sincerely,

Arlene Hubbard
Jack D Hubbard

Attn: Carter Fritschle

I am writing to my knowledge of Margarete Moore's 5/27/1988 water filing which I have recently had changed to Jack and Arlene Hubbard as I brought the property from Margarete Moore 1/31/91. Filing #A78-10215, T19N R02E SEC 30, County of Adams 156 acres. Priority date 4/5/1957.

Before I brought the ranch, my father and I rented pasture from Ivy Moore and he had sold me the Hancock place of 160 acres . He also talked to me about buying his 156 acres and how he had filed for water in 1957 and it went to court in 1960 and he was given enough water that I would never have to worry about irrigating. I brought the ranch from Margarete with the water rights and knowledge there was plenty of water. I have been using this water for 16 years and need it to cover the ranch and my adjoining property.

Sincerely,

Jack D Hubbard

Dear Mr. Fritschle

I enclose herewith an affidavit concerning waste water that my father used for irrigation on his ranch situated in Meadows Valley. If I may be of further service in resolving this matter, then please do not hesitate to contact me within the next ten days at Jack Hubbard's phone 634-9508 or after ten days at jonmoore07@gmail.com, as I am home from Iraq and will be returning Oct. 1.

Jon E. Moore

I, Jon Moore, state, avow, and affirm that my father, Ivy M. Moore, did to my certain knowledge, use waste water issuing from a drain ditch located at the extreme south west end of the George Wilson ranch. Said water flowed down Wilson's drain ditch into the North/South ditch that Dad used to divert water from little creek, and then on down that N/S ditch to various diversion points on Dads ranch. This use by Dad was made to my certain knowledge from 1957 until his death in 1977, and said use was continued annually by my mother, Margarete Moore until she sold the ranch in 1991.

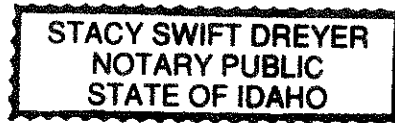

To protect and preserve her right to use said waste water, and my mother filed a claim to it in 1988.

Subscribed and sworn to before me

This 24th day of September, 2007

I am writing to affirm the Margarete Moore filing 5/27/1988 for A78-10215, T19N R02E Sec 30, NE1/4 NE1/4 NW1/4 County of Adams for 156.0 Acres, with a priority date of Apr. 5, 1957. The ranch was purchased by Jack and Arlene Hubbard 1/31/91 with all water rights.

I grew up on this ranch and witnessed my father irrigated it with the above source of water.

Sincerely,

William G. Moore
