Dear Sir, (Lemhi Basin, Timber Creek & Trib " ")
Water right 74-0038 is not being used
on the ground it was decreed for.

It is being used to supplement water rights
74-0040 and 74-0041.

This practice has been going on for around
seven years.

If I am right about this you need to
have the watermaster put the water back on

the ground it was deemed for.

Please Check This out and inform me
as to your decision.
