Yes sir he's after more detail of my work he saw in the NCAPs he received. I'll take the work from here. The Senator just knows you are reliable and accommodating and why he remembers your name and contacts you consistently. I will work to reinforce his view. He will want someone who will be available and deliver terrific service to him after I am gone.

Don,

Would the request below be related to the work you were doing for Senator Stennett?

Shelley

Subject: Re: Map of Friehe SRBA Recommendations

Shelly, Could you please map out the current recommended splits in water rights that are appurtenant to my property in the Pahsimeroi? Or forward this request to someone who can do so. Thanks Clint

I've attached a file called friehe.jpg that shows the 2004 aerial image of the ranch without the water rights superimposed. Please let me know if there is anything else IDWR can do to help.

Sincerely,

Subject: Re: Map of Friehe SRBA Recommendations

Shelley,

Would it be possible to send the aerial photo map of this ranch without the water rights superimposed so I could better orient myself with what is on the ground in relationship to the quarter sections/the springs and the water right recommendations. I appreciate it. Clint Stennett

Keen, Shelley wrote:

Senator Stennett,

I've attached a file with the map you requested. The recommendations are grouped in the same way that they were on the spreadsheet I sent you. It's important to note that the recommended places of use for some of the individual water rights are for portions of the areas shown. Because the individual places of use overlap so much, it would be difficult to show each recommendation individually without using multiple maps.

Sincerely,

Shelley Keen
