E. REASONS SUPPORTING OBJECTION(S):

GENERAL DENIAL

For the reasons described below, the State of Idaho denies that the United States has taken any action sufficient under the law for the creation of the claimed federal reserved water right for Administrative purposes.

The United States Supreme Court has characterized the federal reserved water right as the exception to the general rule regarding compliance with state water law. The Court stated:

Each time this Court has applied the 'implied-reservation-of-water doctrine,' it has carefully examined both the asserted water right and the specific purposes for which the land was reserved, and concluded that without the water the purposes of the reservation would be entirely defeated.

United States v. New Mexico, 438 U.S. 696, 700; 98 S.Ct. 3012, 3014; 57 L.Ed.2d 1052, 1057 (Footnote omitted). The Court went on to state two reasons for this careful examination. The water right is implied, rather than express, and congress has a long history of deferring to state water law when it has expressly addressed the question of whether the federal must comply with state water law. *Id.* 438 U.S. at 701-702, 98 S.Ct. at 3015, 57 L.Ed.2d at 1058. The purposes of the reservation would not be entirely defeated in the absence of an implied federal reserved water right.

SPECIFIC ALLEGATIONS REGARDING THIS ADMINISTRATIVE CLAIM

Public Land Order 1564 designated the Cooper Creek Administrative Site as the following lands: T. 20 N., R. 19 E. (unsurveyed), sec. 18, W $\frac{1}{2}$ SE $\frac{1}{4}$ NW $\frac{1}{4}$ and E $\frac{1}{4}$ E $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ B.M. The State of Idaho lodged with the SRBA District Court a true and certified copy of Public Land Order 1564 in the proceedings related to subcase no. 77-10795. A copy of that true and certified copy is lodged with this objection as Idaho Exhibit 1. A true and certified copy of the Master Title Plat for T. 20 N., R. 19 E. B.M. was lodged as Idaho Exhibit 2 with the objection filed to subcase no. 75-14379. A copy of that true and certified copy is lodged with this objection as Idaho Exhibit 2. The Master Title Plat depicts the geographic location of the Cooper Creek Administrative Site. True and certified copies of the Historical Indices for T. 20 N., R. 19 E. B.M. were lodged as Idaho Exhibit 3 with the objection to subcase no. 75-14379. Copies of those true and certified copies are lodged with this objection as Idaho Exhibit 3. The Historical Indices note the creation of the Cooper Creek Administrative Site. Neither the place of use nor the point of diversion is within the Cooper Creek Administrative site.
