Chief, Natural Resources Division
Office of Attorney General
PO Box 44449
Boise, ID 83711-4449

Signature of objector or attorney
mailing on Objector's behalf

**Addendum to Objection Form, Water Right 75-4026
Salmon River Properties on Hat Creek**

D.

Objection #10

This water right should not exist.

E.

Reasons Supporting Objections:

As holders of a water license and water rights pending adjudication on Hat Creek, we believe this claim should not be allowed.

At the first filing and public notice of this water claim in 1973, the ranch owners upstream on Hat Creek at that time, Mr. Woodrow Conklin, Mr. Ed Corbett, and Mr. Sidney Dowton, protested this claim and filed an exception with the Idaho Department of Water Administration. It reads, in part:

"This exception is filed on the grounds and for the reason that said water claim has not been used continually; said water has not been used for irrigation on the number of acres claimed; and contestants believe there is not adequate water in Hat Creek to justify the granting of this claim." (see copy attached)

Our concerns, 34 years later, are the same.

We would add that the evidence filed for this claim by Salmon River Properties, consisting of numerous bills from Idaho Power, appears to have no relation to irrigation or to Hat Creek, with the exception of one bill for "irrigation" service for \$10.50 in 1986 (the "service location" is labeled as "irrigation pump 7 hp") and two bills (in 1986 and in 1995, totaling \$8.50) for "residential" service at a "Hat Creek house." None of the other bills are for irrigation service (two are for "general service" and the rest are for "residential" service) and none of the other service locations are on Hat Creek. This suggests that there is no valid evidence of any use by Salmon River Properties of irrigation water from Hat Creek.

Further, we note that in the back file for 75-4025, in which Ezra Creek and Hat Creek are confused, Mr. Rex Christensen, the Pahsimeroi Area Manager for the BLM, in a letter dated May 23, 1973, notes that

"The land that Salmon River Properties is claiming a water right for has never been irrigated out of Ezra Creek, but was proved upon with water pumped out of the main Salmon River." (see copy attached)

Finally, this claim of a water right is not in the public interest. It would drain Hat Creek, which runs below 6 CFS much of the year, disrupting the connectivity of fish habitat and potentially depriving legitimate water rights holders of water.

Re: Notice of Claim to Water Right #75-4026

Gentlemen:

Please be advised that Mr. Woodrow Conklin, Mr. Ed Corbett and Mr. Sidney Dowton have requested that we file an exception on their behalf to the claim filed by Salmon River Properties, Inc., to establish a water right for 6.0 cubic feet per second from Hat Creek. This exception is filed on the grounds and for the reason that said water claim has not been used continually; said water has not been used for irrigation on the number of acres claimed; and contestants believe there is not adequate water in Hat Creek to justify the granting of this claim.

Sincerely yours,

FRED SNOOK
