DEPARTMENT OF
WATER RESOURCES

October 9, 2007

Special Master Bilyeu,

I request the earliest hearing date possible for subcase #22-13212. The protests filed by Mr. Budge are clearly meant to needlessly delay the conjunctive management of the protestants' water rights. On September 27th, the Director of Water Resources told me that it would be cleaner to have all of my claims adjudicated before he administers the water in and around Paradise Springs.

I agree with the Director, and therefore I request the earliest possible hearing date for this subcase, #22-13212.

Thank you for any assistance in this matter.

Sincerely,

Michael L Reid
