Case No. 39576) (see list of 30 subcases attached)
) (USDI / BLM)
)
) ORDER VACATING TRIAL
) and SPECIAL MASTER REPORT

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report, Domestic & Stock, Reporting Area 10 (IDWR Basin 45)* on March 2, 1998. The Director recommended each of the above 30 claims to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from springs for year-'round stockwater use in Cassia County with a priority date of January 1, 1873, based on beneficial use. On all of the claims, the Director added the following language under priority date:

4/17/1926 Claimed under federal reserved water right.

This water right is also claimed based on federal law with an April 17, 1926, date of priority pursuant to an Executive Order signed the same date and known as Public Water Reserve 107.

On July 2, 1998, the State of Idaho filed an *Objection* alleging the water rights should not exist. On April 7, 1999, Bruce Bedke filed a motion to file late *Objections*. Jared Bedke added his motion to file late *Objections* on June 18, 1999, and amended his list of subcases on July 6, 1999. Pickett Ranch & Sheep Company lodged late *Objections* in subcases 45-12541, 45-12545, 45-12658, 45-12728 and 45-12730 on June 23, 1999.

On August 29, 2002, the United States and certain private parties, including Pickett Ranch, filed a *Stipulation* in which the private parties agreed to dismiss their

objections and responses in exchange for certain priority date conditions where the BLM claimants are based on *Public Water Reserve 107*. On August 9, 2005, Pickett Ranch was granted leave to withdraw from the subcases. On October 15, 2004, the State's *Objections* were dismissed based on its *Stipulation* with the United States.

On April 3, 2006, the Bedkes were granted leave to file late *Objections*, but on August 21, 2007, the Special Master entered an **Order** dismissing the Bedkes' *Objections* based on their *Stipulation* with the United States.

On July 7, 2005, an I.C. § 42-1411A evidentiary hearing in the above subcases was held by telephone and the United States lodged the *Affidavit of Fredric W. Price*. R. Lee Leininger appeared for the United States; Bruce and Jared Bedke appeared *pro se*; and Nicholas B. Spencer appeared for IDWR.

In his *Affidavit*, Mr. Price, a water rights specialist in the BLM state office, stated: the federal law basis of the claims is an Executive Order, dated April 17, 1926, and known as Public Water Reserve 107; the claims are located on unreserved federal public domain as of April 17, 1926; the land currently remains under U.S. Department of Interior administration; the claimed water sources were confirmed by field investigation; there is sufficient surface water at the claimed sites for consumptive use by livestock; the sources are springs or waterholes located at the claimed points of diversion; and the places of use are correctly described in the *Director's Report*.

Order

THEREFORE, IT IS ORDERED that the trial set for June 2, 2008, is **vacated**.

Conclusions of Law

The United States is entitled to partial decrees adjudicating federal reserved water rights with a priority date of April 17, 1926, as described in the *Director's Report* and the attached *Special Master Recommendations for Partial Decrees for Federal Reserved Water Rights*.
