ATTACHMENT 3
STANDARD FORM 1 – OBJECTION
SUBCASE 37-00415

Reasons Supporting Objection(s):

Point of Diversion:

The points of diversion as recommended are incorrect based upon the historic diversion of water under this right.

Purpose of Use and Period of Year:

The period of use for wildlife (03/01 through 12/15), irrigation (04/01 through 11/01), and aesthetic (03/01 through 12/15) and the claimed quantity of 25.0 cfs for each of wildlife, irrigation, and aesthetic purposes of use should be recommended in full, based upon the historic diversion, delivery, and use of water by Sinclair Oil Corporation.

Place of Use:

The place of use described in the Director's Report does not accurately describe the lands to which water was historically applied under this water right. Additionally, there is no legal basis for inclusion of the acreage restriction remark, as it was not contained in the decree under which this water right is based.
