CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: Howard J. Field
Address: 23608 Field Lane
Grand View, ID 83624-5054

I object to the following elements as recommended in the Director's Report.

1. ☐ **Name and Address**
2. ☐ **Source**
3. ☒ **Quantity** – Should be as claimed. See below.
4. ☐ **Priority Date**
5. ☐ **Point(s) of Diversion**
6. ☐ **Instream Flow Description**
7. ☐ **Purpose(s) of Use**
8. ☐ **Period of Year**
9. ☒ **Place of Use** – See below.
10. ☒ **Other:** See below.
11. **I object because:**
 - ☐ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

REASONS SUPPORTING OBJECTION(S):

Recommendation 2-10298 is based on claim 2-10198. Claim 2-10298 was filed at the same time as amended claim 2-53 and each described 340 acres that included a more accurate legal description of the 94 acres earlier claimed in 2-10009. Claim 2-10009 was to be withdrawn. [The only difference in legal description for the 94 acres in claim 2-10009 and those 94 acres in amended claim 2-53 and claim 2-10298, was the change of 4 acres from the NWNE to the SESW of Section 26, T5s, R3e.]

As recommended, 2-10167, 2-10169, 2-10171, and 2-10298 have the same 430.4 acre permissible place of use. Common to the objections to these 4 rights is the circumstance that when SRBA claim 2-53 was amended and at the same time SRBA claim 2-10298 was filed, this was done with the indication that SRBA claim 2-10009 should be withdrawn. When 2-10009 was recommended as 2-10171 and 2-10172, this created problems with the recommendations of 2-10169 (split from 2-7357), 2-10167 (split from 2-53), and 2-10298.

The elements, remarks, and conditions for 2-10298 should be recommended in accordance with claim 2-7357, amended claim 2-53, and claim 2-10298 (all attached).

SUMMARY STATEMENT
HOWARD FIELD'S APRIL 15, 1959 PRIORITY CLAIM

Howard Field owns property in Section 23 and 26, Township 5 South, Range 3 East, which has Snake River water rights delivered through a carriage contract with the Grand View Mutual Canal Company. The water used by Mr. Field and delivered by the Grand View Mutual Canal Company is Snake River water which Idaho Power Company delivers through the C. J. Strike Dam. The Idaho Power Canal is the canal that delivers water into the Grand View Mutual Canal. When the C. J. Strike Dam was constructed by the Idaho Power Company, certain diversions from the Snake River and tributaries of the Snake River had to be moved because of inundation from C. J. Strike Reservoir. Consequently, IPCo entered into contracts over a period of years with individuals to deliver their Snake River water rights through the C. J. Strike Dam.

This 1959 priority claim for 2 cfs (100 inches) is one of three SRBA claims for Mr. Field's Snake River water rights which are delivered through a carriage contract with the Grand View Mutual Canal Company. The three claims are for a total of 455 inches for the irrigation of 435 acres: amended claim 02-00053¹, this 1959 claim, and claim 02-7357. The three claims reflect the status of Mr. Field's land ownership in December 1988 when he originally filed 3 SRBA claims for irrigation of the 435 acres. Claim 02-10009 originally filed in December 1988 is to be withdrawn.

The origin of the 455 inches delivered to Mr. Field was examined by IWR in the early 1980's, and Mr. Field does not dispute those investigations. They are discussed here for background purposes.

In the early 1980's, IDWR made an extensive review of flow records at the C.J. Strike Power Plant, contracts between Idaho Power Company (IPCo) and Snake River water users whose rights are delivered through the C. J. Strike Dam, and information from Kay Garsja who, for many years, was the secretary for the Grand View Mutual Canal Company and the Grand View Irrigation District. Based on those IDWR investigations, Howard Field's 455 inches delivered through the Grand View Mutual Canal Company are based upon 455 inches for Shoofly Grazing, dating from a 1952 Agreement. IDWR also examined eight different contracts from 1952 through 1966 regarding Idaho Power Canal water deliveries. At the time of these IDWR investigations, the calculations of the individual rights delivered through the Grand View Mutual Canal, in addition to the water rights that the Grand View Mutual Canal Company holds, were less than the consistent flows from C. J. Strike Dam through IPCo's canal to the Grand View Mutual Canal during the years 1963 to 1981.

¹ Amended Claim 02-00053 now has remarks stating its combined use with the 1959 claim; it also shows the addition of 17 acres to more accurately reflect historical irrigated acreage. Both the 1959 claim and amended claim 02-00053 limit irrigation to 340 acres, 95 of which are an accomplished transfer, and the remaining 245 acres have a common 340 acre permissible place of use (PPU). The 340 acre PPU is also the place of use for claim 02-7357.

The purpose of this summary is to establish that 100 inches of the 455 inches has a priority date of April 15, 1959. 250 inches of the 455 inches are already claimed and have a preliminary recommendation from IDWR based SRBA claim A02-00053 which has a priority of May 2, 1967. The third claim is based on a 1981 license, SRBA claim 02-7357.

The use of 100 inches (2 cfs) from the Snake River delivered through the system of the Grand View Mutual Canal for irrigation on land now owned by Howard Field, dates from Desert Land Entries (DLE) by Verlin Roberts and Ellen M. Roberts, husband and wife.

There were additional Snake River rights (of the Grand View Mutual Canal Company) and ground water rights (of the Roberts) and additional lands involved with the Roberts DLE entries. This summary focuses on 100 inches of Snake River water (not owned by, but delivered by the Grand View Mutual Canal Company) used on the land now owned by Mr. Field.

Copies of the National Archive documents for the DLE entries are attached and confirm that land now owned by Howard Field (and within the 340 acre permissible place of use on the 1959 and 1957 SRBA claims) began to be irrigated April 15, 1959: 123 acres in the SW quarter of Section 26 and 150 acres in the NW quarter of Section 26.

Copies of 1964, 1969, and 1977 aerial photos are attached to show continued irrigation of lands in the SW quarter and NW quarter of Section 26 (first associated with the Roberts DLE entries) as well as continued irrigation of the 340 acre permissible place of use listed on this claim and amended claim 02-00053. Based on the rainfall in this part of Owyhee County, tilled land is presumed to be irrigated land.

The combination of these 100 inches of Snake River water (1959 priority) and the 250 inches of Snake River water from 02-00053 (1967 priority) together provided 350 inches of Snake River water, delivered through the Grand View Mutual Canal Company system, for irrigation of 340 acres, now listed as the permissible place of use for both claims. 95 of the original 340 acres are now claimed on adjacent lands through an accomplished transfer in 1982; the remaining 245 acres are used within the 340 acre permissible place of use. License 02-7357, issued in 1981, is for the 340 acres historically irrigated with only the 1959 and 1967 priority claims, and thus overlaps with these earlier priority claims.

IDWR aerial photograph confirms the irrigation of all 435 acres prior to the commencement of the SRBA in November 1987.
