37-00378, 37-02405, 37-11892, 37-11900, and 37-20609.

Dear Mr. Purdy:

I appreciate your letter dated November 22, 2007, regarding resolution of the Idaho Department of Lands objections to the above listed water rights. As you know, each of the objections related to the inclusion of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of section 31, Township 01 South, Range 20 East, B.M. within the place of use of those water rights. You offer in your letter to delete that forty acre subdivision from the place of use of the respective water rights. That is an acceptable resolution to the Idaho Department of Lands of its objections to these water rights. The Idaho Department of Water Resources prefers to prepare the Standard Form 5, which would make this deletion. I will send copies of your letter dated November 22, 2007, and of this letter to the Idaho Department of Water Resources and will request that the appropriate office of that agency prepare the necessary Standard Forms 5 in accordance with this settlement agreement. The IDWR should send the Standard Forms 5 directly to you. After your review and execution, please send them to me for execution.

Sincerely,

A handwritten signature in cursive script, reading "David J. Barber".

Re: SRBA Case No. 39576

Dear Mr. Barker:

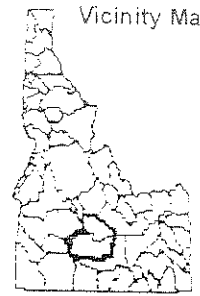

I recently received numerous SRBA objection forms for stock water filings by Picabo Livestock Company on the IDL property, NW1/4NE1/4 in T01S R20E S31. This filing was inadvertent and I am willing to solve it by any means you would suggest. This land is part of our IDL State leased grazing allotment and it is mountain and contains no water as the enclosed picture shows. My water right adviser suggests that I can either write a letter to you that I revoke the claim of any stock water or irrigation rights on this property or sign an agreement that we share the water rights. I am agreeable to solve the problem as you suggest and not burden the court with it. Please advise me of your suggestion.

Sincerely,

Nick Purdy
President
