Re: Change of ownership fro 67-14698 and 67-14700

We received this change of ownership sometime before September 13th, 2007, but I am not sure when. You will see that the form requests changes on 4 rights, but I am only giving you two rights in which a change of ownership needs processed.

The story is this: For the most part all the work for splitting the rights was completed but there was a question regarding how to split 67-14865 so for one reason or another, they didn't get processed. Between 9-13-07 and today, 67-14699 and 67-14865 were partially decreed by the court. I spoke with Carter about the direction to take on these so you do not need to worry about them.

However, parent rights 67-14698 and right 67-14700 have not been partially decreed so we need to inform the court of the changes.

67-14698 has been split into 67-14897 and 67-14898
67-14700 changed ownership in full and was not split.

Could you please process the change of ownership for these two rights only and just ignore 67-14699 and 67-14865.

I have e-mailed Lori a scanned copy of the change of ownership and have asked her to profile it to all rights involved, so even if you don't see it scanned in docs, it will be soon.
