E. **REASONS SUPPORTING OBJECTION(S):**

The United States of America, through the Bureau of Land Management, is the owner of the land upon which a portion of the use is recommended. The claimant's use of Federal land is unauthorized. Claimant's water right should not include federal public land. Perhaps the description of public land is a typographical error. Certain places of use describe lands containing both public and private land. Clarify the use such that it is clear only private land is intended.
