Subcase No.	Issue(s)	Resolution
27-4019	1) Quantity - Should include: use of this right with right 27-2116 is limited to a total combined annual diversion volume of no greater than 3373.7 AFY 2) Point of Diversion - Should include the point of diversion for 27-2116 as an alternate point of diversion. The point of diversion for 27-2116 should be corrected to show it is in the NESE, not SENE. See Affidavit of Robert Beal. 3) Purpose of Use - Should be: Industrial use is for potato processing. The water diverted under this right for industrial purposes must first be used in association with potato processing. After water is used for industrial purposes in assocation with potato processing, it may be applied to land to satisy water quality requirements. 4) Place of use - Add place of use for 27-7411. Remark should read "the place of industrial use includes land upon which discharged process and operating water may be applied for land application purposes to satisfy water quality requirements.	E-mail from Beeman dated 10/19/06 - Basic Americans GPS readings verify IDWR's legal descriptions are correct. We agree to have alternative points of diversion for 27-2116 & 27-4019.Alternative points of diversion still at issue. Condition POU described below satisfy this objection? Don & Ernie have agreed to the following language as a place of use condition:· Place of use includes land upon which the process water may be applied for land application purposes to satisfy federal or state water quality requirements. Water diverted shall not be used for land application unless the water is first used in potato processing as authorized by this water right. The industrial use of water under this right includes treatment of process water with fresh water. *Not certain whether agreement has been reached on the POU description. Ernie's call.*
