RE: Snake River Basin Adjudication Claims

Dear Mr. and Mrs. Ward:

I received your request to have Joyce added to your claims, and have changed our records. Please be aware that two of the claims that you mentioned in your request **A43-00278** and **A43-00279** have been combined and renumbered as claim **A43-10820**. Enclosed please find copies of your claims for your records. If you have any questions, please feel free to contact me at this office.

Sincerely,

SPECIAL MASTER REPORT

Findings of Fact

Joyce and Roscoe Ward, PO Box 108, Almo, Idaho 83312, filed an *Amended Notice of Claim to a Water Right* on June 5, 1989, claiming 4.8 cfs from Raft River for irrigation of 360 acres from July 1 to October 1 with a priority date of April 1, 1879, based on a decree. The Director of the Idaho Department of Water Resources filed his *Director's Reports for Irrigation and Other, Reporting Area 7, IDWR Basin 43, Part I, Volume One* on September 28, 2001. The Director recommended the claim as filed, but for irrigation of 240 acres within a 390.4 acre place of use.

The Wards filed an *Objection* on January 25, 2002, objecting to quantity. However, on March 4, 2002, the Wards and IDWR filed a *Standard Form 5*.

Conclusions of Law

The Wards are entitled to a partial decree adjudicating a water right under 43-00280 as described in the *Standard Form 5* and the attached *Special Master Recommendation for Partial Decree for Water Right 43-00280*.

DATED April 16, 2002.

NOTICE OF ISSUANCE OF
SPECIAL MASTER'S
RECOMMENDATION

Water Right(s) : 43-00280

On April 16, 2002, Special Master TERRENCE A. DOLAN issued a SPECIAL MASTER'S RECOMMENDATION for the above subcase(s) pursuant to SRBA Administrative Order 1 (AO1), Section 13a.

Pursuant to SRBA Administrative Order 1, Section 13a, any party to the adjudication including parties to the subcase, may file a Motion to Alter or Amend on or before the 28th day of the next month.

Failure of any party in the adjudication to pursue or participate in a Motion to Alter or Amend the SPECIAL MASTER'S RECOMMENDATION shall constitute a waiver of the right to challenge it before the Presiding Judge.

DATED April 16, 2002.

STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

RECOMMENDATION NOTES

From: Vikie Hancock

8/31/00

Regarding: Claims 43-00047B, 43-00280 and 43-10820

These three claims are decreed rights from Raft River included in the 1928 Jobe Adams Decree.

43-00280 and 43-10820 are decreed to the same 280 acre place of use, and there has been an accomplished transfer of place of use. Water once used in the NENE Section 10 is now applied to land in Sections 11 & 12 of 16S, 25E and in Section 6 of 16S, 26E. It is impossible to state for certain whether the entire 280 acres were irrigated at the time of the decree, but it is more likely that a standard one inch per acre was awarded for this right, which would indicate a very plausible 240 acres. **43-10820** is a combination of decreed rights **43-00278 and -00279**. These rights were both decreed with priority dates of 4-1-1872 and have a specific season of 4-1 to 7-1 each year. They total 4.8 cfs. **43-00280** is also for 4.8 cfs, has a priority date of 1879 and a specific season of 7-1 to 10-1 of each year. Language in the Jobe Adams decree states that the 4.8 cfs diversion rate represented by **43-00280** a part of, and not in addition to, the 4.8 cfs represented by **43-00278 and -00279**. My recommendation for these two claims are for a combined total of 4.8 cfs from Raft River for the irrigation of a combined total of 240 acres within a PPU of 389 acres.

43-00047B represents the remaining portion of a right decreed in the Jobe Adams to lots 1, 2, 3, 4, & 5, Section 6, T16S, R26E. Documents in the file show that, between the time of filing of the lawsuit and the time of issuance of the Decree, 2.0 of the 3.82 cfs from Raft River that were included in the Decree were transferred by sale from the place of use. This transfer was not recorded with the department of Water Resources (Reclamation). This claim represents the 1.82 cfs remaining. **43-00047A**, claimed by Spencer Brothers, represents the transferred portion. It appears that of the original decreed tracts, it would have been reasonable that believe that 191 acres of those tracts could have been irrigated, as modern GIS methods calculate 166 irrigated acres there in 1987. If 2.0 cfs were transferred from the place of use, roughly 100 acres - at 1 inch per acre - would have been dried up to accomplish the transfer, leaving approximately 91 acres associated with this portion of the right. My recommendation for this claim, therefore, is for 1.82 cfs from Raft River for use on 91 acres within a PPU of 389 acres.

The single point of diversion from Raft River for all three rights is still functional, and the claimant, Roscoe Ward, still uses water from Raft River whenever it is available to fill his rights.

See claim file 43-02411 for maps and memos documenting the permissible place of use for surface and groundwater sources for this ranch.
