Regarding: Case No. 39576, Water Right #35-02444

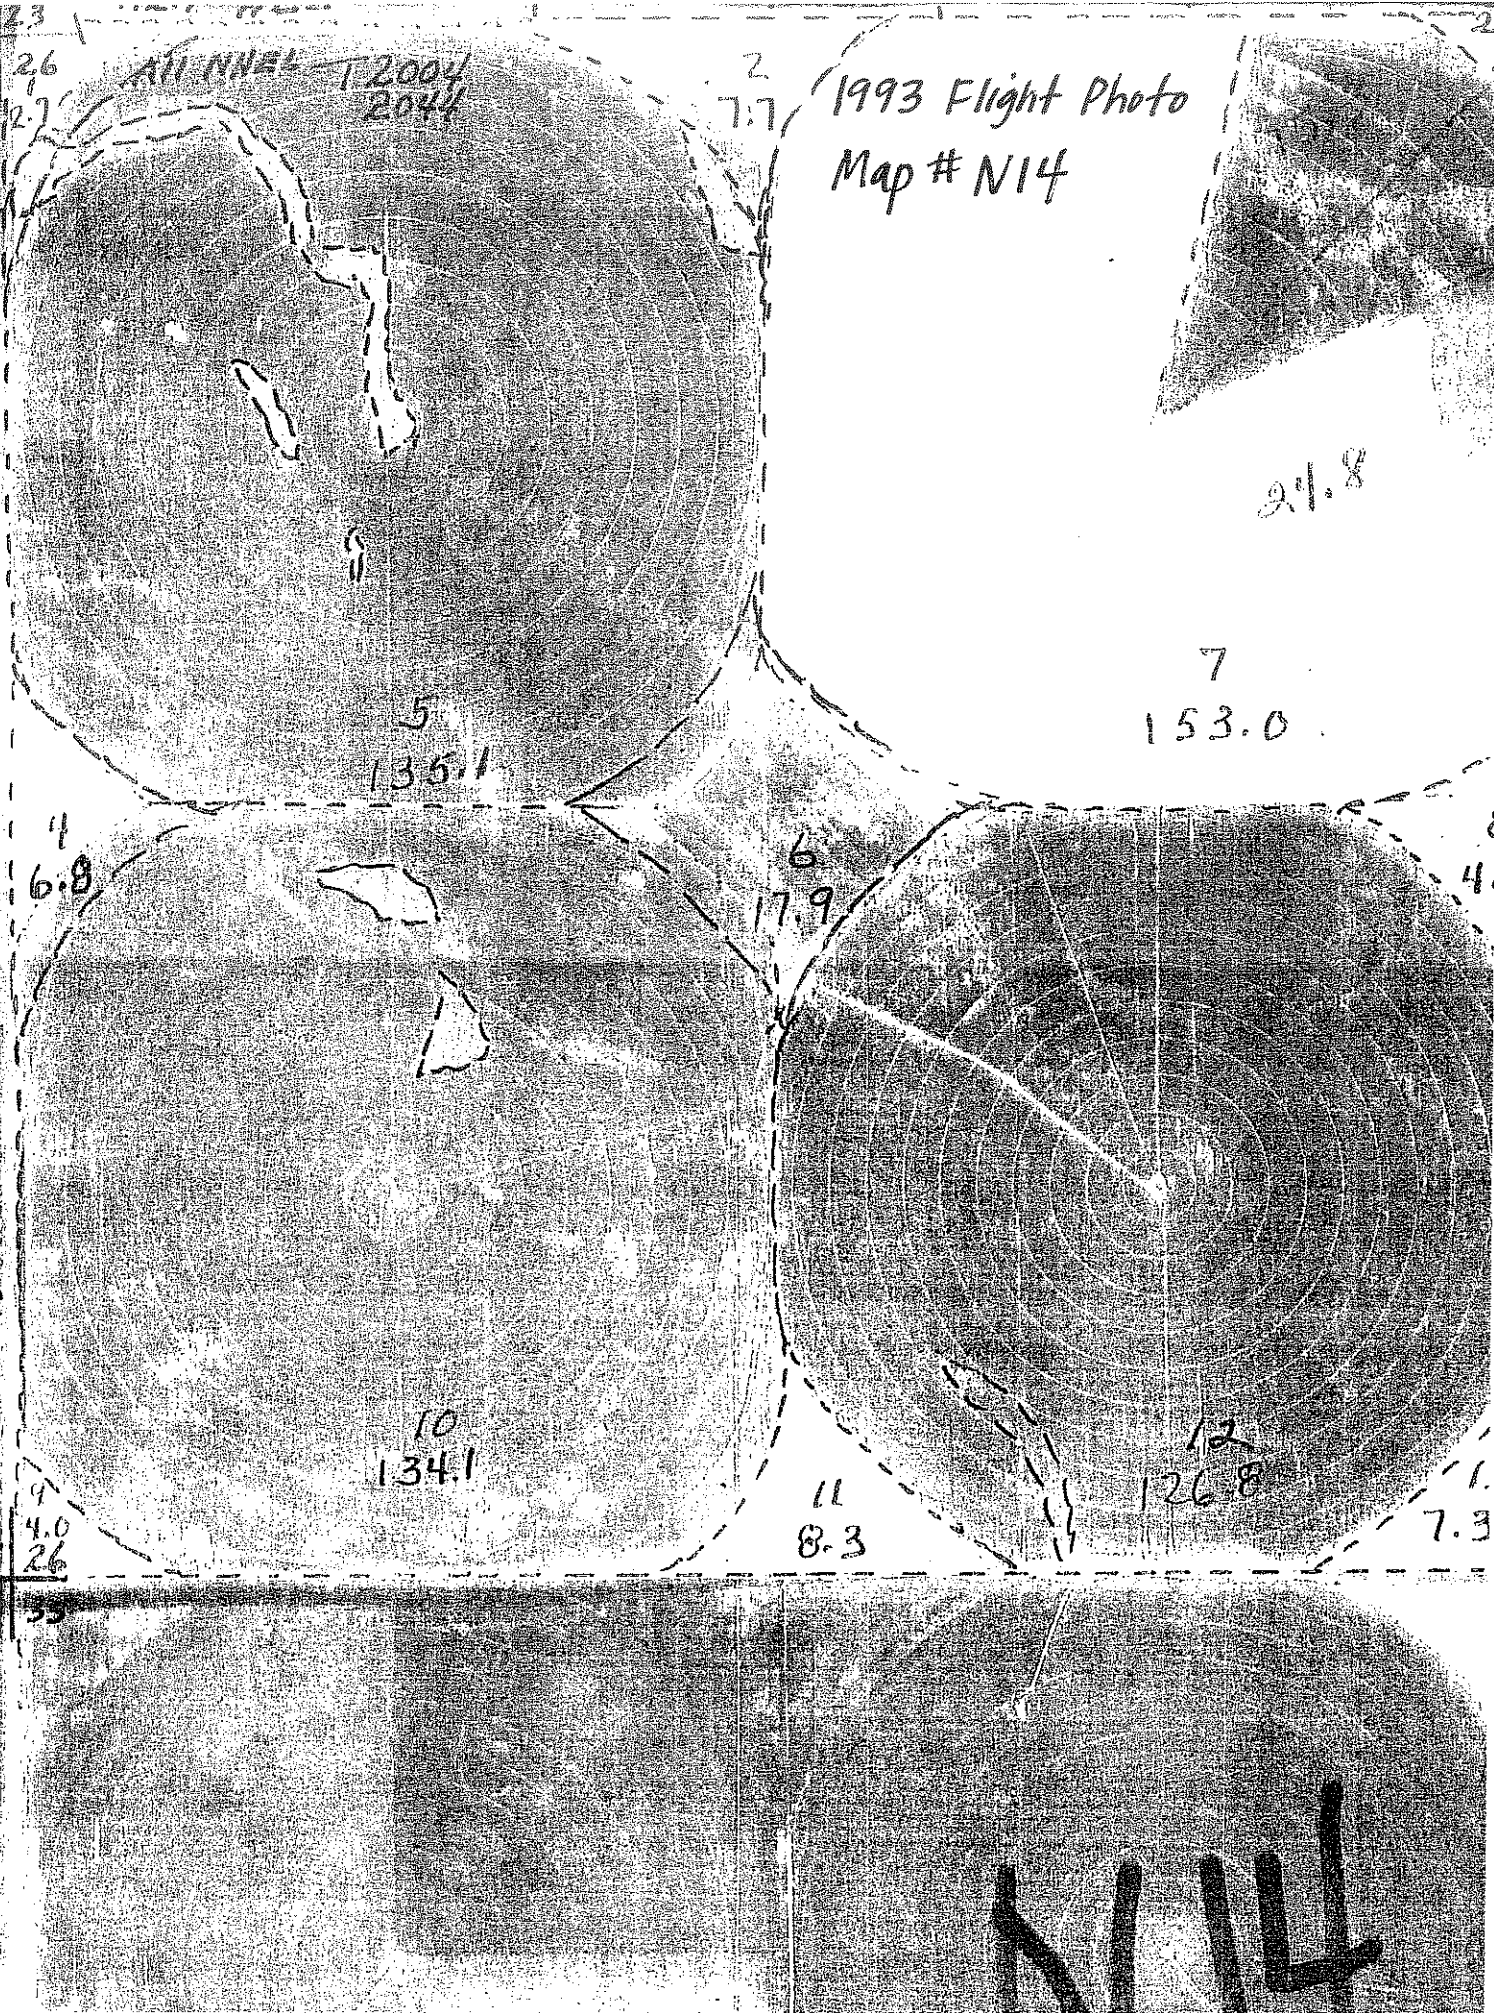

I went back into the Farm Service Agency office to see if they could document the fact that we have always been watering and farming the piece of land in question. They were able to provide me with another photo map taken in 1993. This photo reaffirms our claim that we have always been farming this piece of ground. They told me if necessary we could go to micro filmed records to prove that the ground has been farmed from 1987 to the present date.

Could you please add this map to the documentation in this case?

Thank you,

Robert A. Murdock
