Dear Sandy,

In reference to 86-11979

We purchased property consisting of 10 acres (Parcel #RP01620000630A) in November 2006, which is a single domestic residence. On the property there is a 6" cased well, 200 ft deep that generates water by means of using a 110 volt generator. The original owner was Norm Norton, who began drilling the well December 1974. Our basis for this claim is Beneficial Use, domestic internal/external use.

The location for the POU/POD is: T38N R1W Sec. 12 SENWSE, Cedar Creek Subdivision, as indicated on the Idaho Residence Property Record previously sent.

Bruce and June Williams (725 S. Meridian #1028, Apache Junction, Arizona 85220, (208-794-6848) is a neighbor who has lived in the area for more than 30 years. Bruce informed us that the well has been present and used on this property since the mid 1970's (priority date: 1/1/1976).

Sincerely,

Mark and Roxanne Feucht
