) (Digital Boundary)

I. FINDINGS OF FACT

A notice of claim was filed for the above-captioned water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right.

Objections to the *Director's Report* were timely filed by the claimant Settler's Irrigation District, the Bureau of Reclamation, and the Boise Project Board of Control. The State of Idaho filed a response to the objection of the Bureau of Reclamation. On October 26, 2007, the parties to the subcase filed a *Standard Form 5 – Stipulated Elements of a Water Right*, which resolved the objection. The Idaho Department of Water Resources concurred with the stipulation. On January 8, 2008, a hearing on the *Standard Form 5* was held, which resulted in a change being made to the language of the period of use remark. All of the parties in attendance at the hearing agreed to the change.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that water right 63-00230M be **decreed** with the elements as set forth in the attached *Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)*.
