RE: MAKING THE NAME THE SAME ON ALL 3 OF YOUR CLAIMS

Dear Dick and Betty:

I've finally gotten some time to nit-pick all the Baker family claims as a result of your sale of the property. As it says, I need to have all your names on the claims the same.

In your case, 2 claims are in the names of Dick L. and Betty L. The most recent claim on Pine Creek, A72-00202E, that you filed last February was signed Dick L. and Betty.

Its important that all the claims have the same name format so that when we ask the computer for Baker claims we get them all.

In order to change a name we have to get an amended claim signed so I enclose a copy of the claim A72-00202E for you both to sign as Dick L. Baker and Betty L. Baker please. I'll notarize your signatures here and return copies to you as we usually do.

Since I never came back to do the field exam this year I'll have to do it in the 1996 season. I always miss being on the East Fork and seeing you and your family. Things in the adjudication seem to get more complicated as time goes by so I feel that I'm learning more and more about less and less...the definition of an expert!

Please call if you have any questions about this or anything else related to your claims. Best wishes and good health to you both. Good luck in 1996.

Sincerely,

Francis G. Hitchcock
Water Resources Agent Sr.

FIELD EXAM FOR LATE CLAIM A72-00202E FROM EAST FORK FOR USE IN THE
PINE CREEK SUBDIVISION, LOT 30, BLOCK 1.

DEAR DICK AND BETTY:

As you know from Jim Bennett's office I will be up again next week, June 12th to the 16th, to finish up some work. As part of my field work I need to do a field exam for the late claim you filed for the lot in the Pine Creek Subdivision.

Please let me know when would be a convenient time for you to take me to the lot and review the diversion and usage there. I plan to be measuring water on Monday for the whole day elsewhere.

As always, you can leave word for me here at the office or you can call the agent at the Salmon office, Bob Foster, at 756-6644, and tell him since we will be working together up there.

I'm looking forward to seeing you again. As for meeting with the family to amend your claims and change the ownership I have left that up to Tom Coates but earlier in the week would be better in terms of my having to travel back to Twin Falls. Again, I am available anytime thats convenient for all of you. Best wishes.

Sincerely Yours,

Francis G. Hitchcock

RE: NOTICE OF CLAIM FILING

Dear Mr. & Mrs. Baker:

Enclosed is your copy of the computer record of the claim filed in the Snake River Basin Adjudication identifying a part of the original decreed right 72-00202. Please review the information contained in the record carefully and notify us of any errors or discrepancies. I have forwarded the receipts covering the claim filing fees to Custer County Title and Jim Bennetts. I have not sent a copy of the claim to Jim Bennetts, as he is not listed as attorney on the original claim filed with us.

If you have any questions please contact this office.

Sincerely,

RE: Baker Claim

Dear Frank:

This has been in and out of here so many times with notes, etc., that I'm not sure what we are doing anymore. I think this is about as close as I can get it without a field inspection, etc.

If there is still some problem, please call me. I believe this all lies under the river ditch (East Fork only) but maybe you know something I don't. Unfortunately, Bakers started this, then Tom helped them, and now I'm looking at it. Just call if you need anything else.

Very truly yours,

James R. Bennetts

Substance of Communication She indicated Anne from her office is working on project. I told her we would help as much as possible but could not give legal advice. I explained that Frank's note was based on IDWR cautious approach as to not give legal advice. She indicated that Anne would call and I would help her out. I told her if we couldn't handle it over phone then Anne could set up an appointment.

Dear Jim Stanton,

My secretary and I filled out some claim forms for a client and sent them to Mr. Frank Hitchcock explaining to him that we did our best to fill them out with what information we had and not knowing really how to do it. We were hoping to get some additional help from Mr. Hitchcock, but he sent them back with a some what rude letter.

We would like you to give us a little help filling out these claim forms. Enclosed is the forms filled out to the best of our ability. Please let us know what else needs done on them and we will give it our best shot.

Mr. Hitchcock had adviced us to consult an attorney, but here its not readily available. We would appreciate any help that you could give us on this matter.

The owner of the property is Naomi Papworth but the Baker's have irrigated it continuously and are trying to buy it if we get the water rights in order. The legal is Block 1 Lot 30 Pine Creek Subdivision.

Thank you for your time and hopefully your help. Hope to hear from you soon.

Very Sincerely,

RE: Snake River Basin Adjudication (SRBA)
Claim Numbers: A72-00201A, -00201E, -00201H, -00202A, -00202D,
-00202E, -00202F, -00202G

Dear Mr. and Mrs. Baker:

This letter is in response to your Notice of Error replies on the above mentioned claims. I hope that I may satisfactorily explain some of my determinations in a way that doesn't just cause us all more confusion.

I was concerned, first off, by your questions regarding stockwater as an element of Use on claim numbers **72-00210H, -00202D, -00202E, -00202F and -00202G**, because it shows up on my copy. I am enclosing computer copies of the recommendations for each of those claims, in case there was an error on the ones sent to you earlier. On claims **72-00201A, -00201E, and -00202D**, stockwater was not originally claimed as a Use, but listed as incidental stockwater on the claim. This remark is included in explanatory material on claim 72-00201E, but not on the other two. As a general provision, incidental de minimus stockwater is included in any irrigation right, but if still wish to add it to your claims, they will have to be amended. Let me know if you wish to do so, in the meantime, I will add the explanatory remark concerning stockwater to claim numbers 72-00201A and -00202A.

You commented on several of the claims because the recommended acres had been decreased from the amount originally claimed. A general explanation is that I can only recommend acres that are actually being irrigated. Given the geography of the Pine Creek area, that excludes any gravel banks or marshy areas that sub up from the river, and the hillside that bisects some of the lots. The Adjudication was begun, in part, to assess the amount of water and number of acres being irrigated at the time of its commencement in 1987. It has been Department policy to allow the recommendation of acres that were dry in 1987 but on which there has been a resumption of irrigation, provided the land was historically irrigated, and no injury to other water users is apparent. I can not, however, recommend acres that you may wish to irrigate in the future.

The acres I recommended, as outlined in yellow on the GIS image, were calculated by a computer program known as Arc View. This program is much more accurate than past methods used to determine area. The basis for the image is aerial photography taken in 1987 or 1988 to record a snapshot in

time, if you will, of irrigation practices at that time. If you feel that I have excluded areas that you do actively irrigate, please mark them on the GIS image and return it to me for further discussion.

The 1938 Court Decree that all of your claims are based upon intended to award 1½ inches (or .03cfs) of water per acre of irrigated land, and that is the guideline I used to determine the recommended diversion amount for the different lots Pine Creek Subdivision. The decrease in diversion rates you noted are the result of the decrease in the acres I found irrigated.

On your replies for claims **72-00201A** and **-00201E**, you note that there should be an additional point of diversion from Pine Creek. I cannot add an element without your amending the claim, so find enclosed amended claims for you to sign and return to me. I hope that the general explanations above cover your comments regarding stockwater and diversion rate.

Concerning **A72-00201H**, the diversion rate was adjusted down to reflect the actual irrigated acres, and also because the 0.02 cfs allowed for stockwater is included in the water decreed for irrigation. Even though the 1938 decree did not include stockwater, stockwater can be added as a use if it is used within the irrigation season and does not increase the decreed diversion amount for irrigation. This explanation applies to all your rights that have stockwater listed as a purpose of Use.

I hope that this letter has explained my methods, somewhat. Please review things again and get back to me with specific changes you have. It would be best to draw them on the GIS image, but if you would rather call, we can possibly hash things out over the phone, with the papers in front of us. Be aware that the amended claim forms I am enclosing for your signature represent the base claims as you filed them, without my preliminary changes for recommendation. If you have any questions, please don't hesitate to call me. We appreciate your continued attention to the SRBA.

Sincerely,

Vikie Hancock
Water Resource Agent

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source): (1) Purpose of Use states Irrigation. This should read Irrigation and Stockwater. Doesn't show stockwater on preliminary, it does on our original and has been determined for historical beneficial use. (2) Quantity-The CFS for this right has been decreased from 0.22 to 0.12. The CFS should remain at 0.22 (3) Place of Use is down as 4 acres and was 5 acres. The original 5 acres should prevail.
2. Describe the changes you wish to make in the proposed recommendation:

(1) Purpose of Use: Should state
Irrigation and Stock water-add stockwater as in the original-historical beneficial use right.
(2) Quantity-Leave as decreed, 0.22 CFS (3) Place of Use-Leave acreage at 5 acres

3. Give a brief explanation as to why you disagree with these portions:

(1) Our legal reads "Irrigation and Stockwater" and so should the preliminary. It was proven as historical beneficial use and still can. (2) Leave as in the original of 0.22 CFS (3) Water may not be on every acre at this time, but we may find a need in the future to irrigate more ground either through better equipment, need, more efficient use of water, drain water, etc. We paid for this right and should not have it taken away. We question the accuracy of your measurements, also.

 I AGREE with this proposed recommendation; no changes need to be made.

M. and appurtenant to said land they are entitled to .3 cubic feet per second of time of the waters of Boulder Creek; .1 cubic feet per second of time of the waters from Baker Basin Creek; 1 cubic feet per second of time of the waters of Bluff Creek; and 2.3 cubic feet per second of time of the waters of East Fork of the Salmon River, all with date of priority May 1, 1896 and .8 cubic feet per second of time of the waters of the East Fork of the Salmon River with date of priority May 1, 1936 and with points of diversion in the S₁SE₁, Section 15, S₁SE₁, Section 10, S₁NE₁, Section 14, and S₁SW₁ Section 11, all in Township 9 North, Range 17, E. B. M.

DECREE

are arid in character and will not successfully raise any crops without the artificial application of water thereon by irrigation thereof, and that all of said lands are susceptible of irrigation from the East Fork of the Salmon River and its tributaries.

✓ 3. That $1\frac{1}{2}$ inches of water per acre, or its equivalent in cubic feet per second of time, is necessary and ample for the proper irrigation of said land.

4. That the dams and diverting works of the several parties to this action were at the time of the several appropriations, and are now, of sufficient size and capacity to carry and convey water so appropriated to and upon the several tracts of land of the several parties for the irrigation thereof, and that each and every of said ^{several} tracts of land are situated in Custer County, State of Idaho.

5. That each of the parties to this action, plaintiffs and defendants hereinafter named, or their predecessors in interest, were at the time of the several appropriations of water, made as hereinafter set forth, the owners respectively of the several tracts of land set forth and described in the complaint, answer and cross-complaint and stipulation on file herein, and that for the irrigation of the same, the said parties, or their predecessors in interest, did respectively appropriate the quantities of water hereinafter stated, and on the dates and from the streams respectively hereinafter stated, and set opposite the names of each of said parties, such water being an estimate under a four inch pressure or its equivalent in cubic feet per second of time, and ever since said dates of the said several appropriations, said waters have been so diverted and used on said lands in the irrigation thereof.

6. That the certain decree of this Court made and entered on the third day of August, 1933 and of record in Book 3 of Judgments at page ³³⁰ 350, records of Custer County;

USED:

Pine Creek Subdivision Decree # 201, 202

72-201	4.5 cfs	Pine Cr & EF	1888
72-202	1.5 cfs	E Fork	1936

Assumptions:

Intent of Decree was to provide $1\frac{1}{2}$ " per
IRRIGATED ACRE IN DECREEED TRACTS. $6 / .03 = 200$ ac
GIS indicates ≈ 180 irrigated acres circa 1987
in ~~1936~~ decreed tracts.

84 acres possible to farm in upper tiers
of property irrigated only with Pine Creek.

Balance of acres in lower tiers only
watered by East Fork

Preliminary Report attempt to recommend
0.03 cfs per found irrigated acre.

11-12-98 ≈ 40 acres claim 1936 EF but not
1888 EF water

≈ 56 acres avail at .03 cfs/ac

≈ 23 acres have not claimed 1936 EF
water. 7 acres are available at .03 cfs
