EXHIBIT "A"

TOWNSHIP 10 NORTH, RANGE 18 EAST, BOISE MERIDIAN, CUSTER COUNTY, IDAHO.

206827

SECTION 25: NW $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$

SECTION 26: SW $\frac{1}{4}$ SE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$

SECTION 35: That portion of the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and the SW $\frac{1}{4}$ NE $\frac{1}{4}$ lying North and East of Herd Creek Road. And that portion of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ lying North and East of Herd Creek and North and West of the County Road.

TRACT II:

TOWNSHIP 9 NORTH, RANGE 18 EAST, BOISE MERIDIAN, CUSTER COUNTY, IDAHO.

Section 4: Lot 4.

TOWNSHIP 10 NORTH, RANGE 18 EAST, BOISE MERIDIAN, CUSTER COUNTY, IDAHO.

Section 32: S $\frac{1}{2}$ S $\frac{1}{2}$.

Section 33: Lot 4, and Lot 5, EXCEPTING THE EASTERLY 777.3 FEET, OF SAID LOT 5

TRACT III:

TOWNSHIP 9 NORTH, RANGE 18 EAST, BOISE MERIDIAN, CUSTER COUNTY, IDAHO.

SECTION 4: Lots 1 and 2;

TOWNSHIP 10 NORTH, RANGE 18 EAST, BOISE MERIDIAN, CUSTER COUNTY, IDAHO.

SECTION 33: Lot 6 and the Easterly 777.3 feet of Lot 5 EXCEPTING THEREFROM:

A fraction of Lots 1 and 2, in Section 4, Township 9 North, Range 18 East, Boise Meridian, Custer County, Idaho, more particularly described as follows, to-wit:

Commencing at the Northeasterly corner of said Section 4, run thence South 89°45' West along the Northerly boundary of Section 4 at a distance of 1005.8 feet along the North line of said Section 4 to the REAL POINT OF BEGINNING; thence South 89°45' West, 224.3 feet; thence South 25°34' West, 334.2 feet; thence South 87°31' East, 210.3 feet; thence North 26°57' East, 349.6 feet, more or less to the Point of Beginning.

This deed subject to Pine Creek Easement reserving and subject, however, to a private Easement or right-of-way for the use and benefit of Grantors or any lineal descendants of Grantors so long as they or their descendants hold interests in lands in Section 31, Township 10 North, Range 18 East, Boise Meridian, Custer County, Idaho, or Sections 5 or 6, Township 9 North, Range 18 East, Boise Meridian, Custer County, Idaho, that may be reasonably served by such Easement. The Easement is described as that certain existing roadway commencing some 100 feet more or less, East of the intersection of the East Fork County Road and the West boundary line of the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 32, Township 10 North, Range 18 East, Boise Meridian, Custer County, Idaho, thence continuing Southerly through the described SW $\frac{1}{4}$ SW $\frac{1}{4}$ to other lands across the East Fork River within the Pine Creek Subdivision or the sections described. This Easement is private, not public, and shall only be for the benefit of the parties named above and may be only used by those parties in that group who hold lands in the above described sections.

RE:
AMENDED CLAIMS RETURNS

WHEN THE COVER LETTER CAME IN WITH THE SIGNED CLAIMS I NOTICED THE LETTERHEAD SAID YL RANCHES. I CALLED SEVERAL TIMES BEFORE MELODIE ANSWERED AND I ASKED IF THE CLAIMS SHOULD BE IN THE NAME OF YL RANCHES.

SHE SAID NO AND I SAID I WOULD GO AHEAD AND NOTARIZE THE SIGNATURES AND SEND HER COPIES FOR THEIR FILES.

I WILL ALSO SEND THEM AN ORDER FOR THE DOCKET SHEET PER THE COURT'S ORDER FORM SINCE THEY CHECKED THAT THEY DID WANT TO ORDER.

Dear Frank,

Sorry this took us so long. You know how summer is. It rained here today, so we sat down and signed our names.

I put a check on one of the sheets that I do want a monthly copy of the Snake River Basin Adjudication docket sheet. I didn't think I needed to put a yes check on every one.

Earlier in the year I received notice that I needed to respond to any claims on our water rights before October. Is this still necessary? I have not heard back from Jim Bennetts and so am assuming this is on hold again, hopefully.

I have been to Twin once this summer and am going down to school shop over Labor Day. I am amazed at the changes in the area every time I go down.

Thank you for all of your help on these water rights.

Sincerely,

Melodie A. Baker

MEMORANDUM

In October of 1995, I asked Brent King to ask the Adjudication unit in the state office how amendments to claims were to be handled in terms of the extension of time forms originally required as a result of I.C. 42-1409 as amended.

See Ownership Change binder in FH cubicle shelving at Amendments, 42-1409A tab in the materials: Steve Clelland memo of phone conversation with Don Shaff "...Form 42-1409(10)-1 required...until further notice...". Memo FYI to AJ Staff from Clelland dated October 27, 1994.

Per conversation with Don Shaff according to Brent King, assistant attorney general, we are to "document the file to show that if we had made him do it we would have OKd it anyway."

As per Brent King, October 24, 1995.

Phone message here October 23, 1995 from Brent. Didn't get the message slip on the 23rd. Found at front on the 24th. Called him at S.O. and left message. He came in to office here later and gave me the information.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION / (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE
<u>0BB</u>	/		* <u>31.0</u>	* <u>.13</u>	= <u>4.03</u> CFS
<u>H01</u>	/		* <u>18.0</u>	* _____	= _____ CFS

Stockwater claims for Wayne and Melodie Baker

From: Vikie Hancock

[illegible]

I called Melodie Baker in reply to her letter to the department dated 1-27-99 regarding claims for stockwater on their ranch along the East Fork. I asked her what her method of stock watering was, and the number and kinds of stock. She told me that they had between 400 and 500 range cattle, and 20 horses. She told me that they watered them year round from the river and creeks and irrigation diversions. She said that there were probably four different "ranches" that they divided the stock up into, and that sometimes all of the cattle were confined to one area, and that sometime the cattle were divided up into several areas, depending on conditions.

I explained that in order to have stockwater included as an element of their existing claims, they could amend each claim to include stock as an element, however, because these claims were based upon the 1938 Decree for irrigation, their stock diversions would be included in the total diversion for irrigation, and limited to the irrigation season of use.

I told her that another option was to file late Beneficial Use claims for stockwater only, with a priority date based on the decreed priority date for irrigation (from 1938 decree). I told her there would be no late fees on de minimus stockwater claims. I gave her our guidelines of 0.02 cfs for instream stock use, and 0.11 cfs for diversion to 500 range cattle. I explained the general process of filing late claims now that recommendations have been reported to the court, and sent her the claim forms needed.

Vikie Hancock
Water Resource Agent
State of Idaho
Department of Water Resources
1341 Fillmore St., Suite 200
Twin Falls, ID 83301-3380

Dear Ms. Hancock,

I appreciate your changing the points of diversion to the forty acre tract, only.

Thanks also for the changes on 72-00193A and moving the "dot" down on the one GIS.

I noticed that on claim 72-00201B, under Explanatory Material, it says: "property is also known as LOT 3, BLK 1, and it should be LOT 10". Must be a typo, it was right on the papers before.

On claims 72-00193A, 72-00198, 72-00197, 72-00196, 72-002142, 72-00200, 72-00199 all show incidental use for 400 cows and 20 horses. This is non-irrigation use, and I understand this is a given as a beneficial use in the Adjudication and thus not an element of the water right, but since there has always been this stated on the claim, why take it off now? The stockwater claims we filed for, are not uses along the river and in our ditches, that the above claims covered under non-irrigation/incidental. We are just concerned that down the road, with all of the environmental pressure and pressure on water for the endangered species, we are going to lose this right if not shown, and where it was already stated on the above claims, would like to see it remain, if that makes sense. We do not want it to take away from the diversion amount allowed for irrigation under our decree.

Thank you for taking care of all of this. I hope I am not making this any more difficult than necessary. We are just gunny when it comes to our water, we just keep getting so much pressure.

Sincerely,

Melodie L. Baker

RE: Snake River Basin Adjudication (SRBA)
Claim Numbers: A72-00193A, -00196, -00197, -00198, -00199,
-00200, -00201B, -00224, -00225, -02142

Dear Mr. and Mrs. Baker:

I am writing in response to your reply to our Notice of Error forms for the above adjudication claims. I hope that I can address the comments that you have on the many claims in this letter. I'll tackle the questions which appear most often first, and then move on to more specific items, in the hope that this method will be most understandable, for all of us.

First, I agree with your request that we identify the points of diversion to the forty acre tract, only. It has been Department policy to locate points of diversion to the ten acre tract whenever possible, for accuracy. However, when dealing with surface water, and especially with a river as dynamic as the East Fork, we recognize the benefit of backing that off a bit to allow for changes in the river channel. I have corrected our records per your request.

Next, regarding *stockwater as a Use*. All of the claims referenced above were originally filed for irrigation use only, with stockwater listed as incidental, and thus not an element of the water right. All of the claims, except 72-02142, which is based on a license for irrigation only and originally filed by George Shinderling, are based on decreed rights from a 1938 Court Decree which was silent on stockwater usage. You do, however, have stockwater claims, based on beneficial use, in the Adjudication. You should have received the partial decree for these claims on or around October, 1997. I am sending you copies of the stockwater claims that you filed with the Department. If you now feel that these claims do not accurately represent your stockwater usage, you have a couple of options. You can file additional claims for stockwater based on beneficial use. You can amend the above irrigation claims that are based on decree to include stockwater as a use; however, the diversion amount for stock would be included in the diversion amount allowed for irrigation under your decree, so the total diversion rate would remain the same. Stockwater is considered incidental to your irrigation water right, whether or not it is listed as a use, however, if you wish to proceed with either of the stockwater options outlined, please let me know, and I will forward the appropriate forms.

Next, I will try to explain our method for determining the proposed recommendation of your irrigated *Place of Use*. The Adjudication process was begun in 1987 to determine the status of water rights in Idaho at that time. The Department contracted to have aerial photographs taken then, so that we would have these photos to calculate what was being irrigated at the time the Adjudication was begun. Statutes were enacted by the Idaho Legislature to ensure that all water uses existing at commencement could be included in the process, whether or not the landowner had complied with permit requirements. However, any new uses - including an addition in acres irrigated - require permits, per Idaho law. It has been a Department policy to recommend acres where resumption of irrigation occurred during the process of the Adjudication on acres that may have been dry in 1987, but had been irrigated historically, provided that no injury to other water users is apparent (ie: your claim 72-00201B in Pine Creek Subdivision). We cannot, however, include in our recommendation acres that you may wish to irrigate in the future.

The department uses "Arc View", a computer program also used by Custer County, to locate and calculate the irrigated acres, based on aerial photography. The exact shape of the fields is sometimes subject to human interpretation, therefore I also used notes that former agent Frank Hitchcock took during his field exams of your property. If you see that I have missed acres that you irrigate, please document them by drawing the acres, and the ditches used to irrigate them, on the GIS color images you received in the mail, and send them down to me, so that I can add to my recommendation. This also goes for points of diversion. If you know that a point of diversion wrong as represented on the GIS image, please mark the correct location so that I may change my recommendation. I'll then send you a corrected GIS image back for your approval.

You mentioned specific acres that you wished added to claim number 72-00193A in the NWNE of Section 35. I believe that this field was included in claim 72-00193B for Richard and Cheryl Baker, per instructions to former agent Frank Hitchcock. They didn't mention the discrepancy in their reply to our Notice of Error for 72-00193B, but further checking on my part shows that the field in question seems to be included in your Warranty Deed. I am, therefore, correcting the split of claim 72-00193 so that your "A" portion includes these acres. I'm also glad you caught the error in Explanatory Material - I corrected the EF-8 legal to read NESW.

On claim 72-00224 and -00225 you questioned the legal description for EF-3. Changing the legal to read to the $\frac{1}{4}$ $\frac{1}{4}$ instead of $\frac{1}{4}$ $\frac{1}{4}$ $\frac{1}{4}$ will still not make it match your original claim. Gary Ingram seemed to agree with the legal for EF-3 as I have described it, however, if you strongly disagree, let me know. In regard to the point of diversion for claim numbers 72-00199 and -00200, the point on the GIS image is incorrectly a bit north of section 5 since the river goes right along the section line, but your recommendation reads correct. I will move the "dot" down on our master GIS file to match the legal.

I hope that I have covered all of your concerns. I am sending you a corrected copy of the split claim 72-00193A, showing the change in place of use, and of the other claims with updated point of diversion legals, and other data entry corrections. Please let me know as soon as possible if you still wish to add irrigated acres, change specific points of diversion, or file for additional stockwater uses. The actual Director's Report to the SRBA Court is scheduled to be sent January 12, 1999, and it will be best if we can get things corrected before then. I want to thank you for your cooperation in the SRBA. It has certainly been a complicated process, but hopefully we are nearing the end in your basin. If you have any questions, please don't hesitate to call me.

Sincerely,

A handwritten signature in cursive script, appearing to read 'V. Hancock', written in dark ink.

D WAYNE BAKER
MELODIE L BAKER
HC 68 BOX 304
CLAYTON ID 83227

Daytime Telephone Number:

Evening Telephone Number:

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source): (1) Point of diversion Leave the legal as in on original not taking it down another 1/4 (2) Purpose of Use doesn't show stockwater, it does on our original. (3) Place of Use: acreage reading.
2. Describe the changes you wish to make in the proposed recommendation:
(1) Pt of Div: We are concerned that by trying to "pinpoint" the diversion with your GIS, the diversion location may be misread or our legal will now be wrong and we will end up in trespass. Please review these and let us know the correct location.
(2) Purpose of Use: add stockwater
(3) Place of Use: leave the acreages as is on our original decree.
3. Give a brief explanation as to why you disagree with these portions:
(1) The legal description may better be left at the 1/4 of 1/4, instead of the 1/4 of 1/4 of 1/4 of until readings can become more consistent. (2) Our legal reads "Stockwater" and so should the new one. (3) Our original acreages should stand. We may not have water on every acre, but we may put in more ground in the future, do to better equipment, need, more efficient use of water, drain water, etc. Where is your right lowering the number of acres we can use our water on? You have **no** right to "limit" the irrigation to your decided lower acreage, that is a takings and we object. Your maps are also 10 years old, we question their accuracy. What method did you use to determine the acres? My understanding is, that at this time, the equipment used to measure acreage is not consistent and true every time.

 I AGREE with this proposed recommendation; no changes need to be made.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.
