Re: Recommendation for 75-2123

Dear Mrs. Bills:

Enclosed is a modified recommendation and an aerial photo with the place of use outlined. An additional 24.3 acres has been recommended. This additional acreage was found to be the only land that could possibly be historically irrigated.

The recommendation for 75-10630 has been modified to show stockwater from 1-1 to 12-31. The irrigation portion of this right from 3-1 to 12-15 was not recommended at this time because more research is needed. You will more than likely have to file an objection with the court if you wish to irrigate outside the standard season of use for this area. You may also file an objection on 75-2123 if you can provide evidence that more acreage has been historically irrigated.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Gregory J. Taylor
IDWR

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use
