To whom it may concern;

I, Ed Smith, lived on property at the foot of Leesburg Hill from 1938 to 1946 and later in 1950, the property now owned by Robert Wiederrick. I used the water in the ditch on that property to water a small orchard I had at that time. What water I didn't use, went on down the hill across the property now owned by Mrs. Billy and across the road and down the property now owned by Stanley Morgan.
