Re: Wallace (Brownlee water right No. 75-14011)

The Wallace's have asked me to write concerning why they were denied their claim to a water right No. 75-14011.

In 2001 my wife and I sold a parcel of land containg 20 acres to the Brownlee's. Then on Oct. 5,2001 we recieved a letter from the IDWR informing us that IDWR has transferred 0.55 CFS to 13 acres to the Brownlee's. This transferr was made from 75-13961 with a priority date of 1915 - 05 - 01.

In 1967 My wife and I purchased the Jake Jakovac place. From 1967 to 2001 we used the 1915 right to irrigate the Whole as shown on the enclosed map.

Now I don't understand why the Wallace's should be denied their right to a part of that Whole. I'm sure they would appreciate an answer.

Sincerely,

Jack Ellis
