DEPARTMENT OF
WATER RESOURCES

Jeanette McIlhenny
213 Bayhorse Road
Bellevue, Id. 83313
Water right owner of 363H and 363F

Response to objection filed on 363G

January 23, 2008

To Whom It May Concern:

I read in the Wood River Journal date January 23, 2008 that the members of the Concerned Water Users and Big Wood Canal Company have filed an objection to my water right at above address.

As of today I have not received an objection stating that my water rights held on above address have been objected to by the Big Wood Canal Company. I was able to review the objection that was filed, via the internet. The water right to which the Big Wood Canal Company and Concerned Water Users is filing their objection number 37-363G and 37-364G, are not the updated version filed with the State Department of Water Resource signed and completed April 10, 1992. The proof of priority was filed and completed in a timely manor. All water rights 363H and 363F owned by Jeanette McIlhenny are legal and used within the recommendation of the State of Idaho.

I never received an objection of my water rights since the information at the Adjudication office at the Department of Water Resources does not reflect the current version of my water right. Therefore, this letter is my response to the objection I never received. I have been in contact with Doug Jones, Adjudication officer at the Department of Water Resources and he agrees and concurs with this finding. I am at this time, asking the members of the Concerned Water Users and the Big Wood Canal Company to withdrew this erroneous objection to my water rights by sending me a letter stating the objection has been withdrawn. I appreciate your time and expeditious response to this matter.

Sincerely

Jeanette McIlhenny
