

WATER RIGHTS 74-605 & 74-606

The Herb Aldous Ranch was originally sold to a son-in-law, Hank _____, on contract. Hank built the house now owned by Dan Mudd. He and the Aldous family had a falling out. It was then sold to Ralph Yates except for the portion depicted in the enclosed plat map. Ralph sold to **Joe Tonsmeire**. Joe didn't need the home, so he sold the home and small acreage on the gravel bar to **Dan Mudd**. Joe still owns all the ground E of the Lemhi Road and W of the Geertson Creek Road. **Don Olson** purchased the ground W of the Lemhi Road.

Herb sold the parcel E of the Geertson Cr Road (NENW S) to **Dale Jolley**.

Herb's children ended up with the platted parcel. They sold a 4.0 acre parcel to **Bob and Carolyn Haslet**, and a 6.0 acre parcel to **Travis Scott**. The remaining 26.58 acres is now officially owned by **Wallace and Suzie Aldous Raymond** according to the assessor's records.

All other land transactions occurred prior to the original Lemhi Adjudication. Stacy Harley had already purchased the 4 acres and built the home now owned by the **Burningshams**. So, I don't think that their property is included in 74-605.

Roxanne,

I think that if you map the ownerships included in the plat, you can split these two water rights appropriately.

S/Bob Loucks
